

Influenza, SARS and Other Highly Infectious Respiratory Diseases

- I. Upper respiratory tract
 - a. Common cold
 - b. Sinusitis
 - c. Pharyngitis
 - d. Tonsillitis
 - e. Epiglottitis
- II. Lower respiratory tract
 - a. Airways
 - b. Lung parenchyma
 - c. Pleural space
- III. Pneumonia
 - a. Atypical
 - b. Typical
 - c. Lung abscess
 - d. Viral
 - e. Secondary bacterial
- IV. Influenza
 - a. Types
 - b. Subtypes
 - c. Seasonal
 - d. Pandemic
- V. SARS
 - a. Corona virus
- VI. Deliberately released pathogens
- VII. Personal protection
 - a. N95 compliance
 - b. Gowns, gloves, face shields
- VIII. Protocols to limit exposure
 - a. Exhaust gas scavenging
 - b. Non invasive ventilation
 - c. Intubation protocols
 - d. Ventilation protocols
