

# Your time is precious... What if your ventilator could give you more?

Reduce overall ventilation time by 33%<sup>1</sup>

Ventilation in the ICU requires a wide range of features for your most critical patient. The EvitaXL provides state of the art technology to meet this challenge.

With SmartCare®/PS weaning is automated and can be a true time-saver in the ICU. Both you and your patient benefit from Dräger technology at the bedside. Order an EvitaXL and take advantage of our limited time offer of the Lung Protection Package at no charge to you – a software option that helps you initiate lung protective ventilation.

**CALL 1-800-4DRAGER TO GET YOUR LPP<sup>2</sup> FOR FREE WHEN ORDERING AN EVITA XL.**

Dräger. Technology for Life®

<sup>1</sup>Results are based on a European Multicenter Randomized Trial with 144 patients demonstrating improved respiratory condition, with stable hemodynamic and neurologic status, and no ARDS prior to initiating weaning.

<sup>2</sup>Offer expires March 31, 2009.
