

Good study results, better night's sleep.

Coming soon – Our new Alice PDx* portable diagnostic sleep system offers flexibility and the advanced features to enable you to meet today's testing requirements for levels II, III and IV. The system provides a variety of capabilities from basic screening to advanced diagnostic evaluation and allows you to test patients outside of the lab, without compromising study results. And, the unique Good Study Indicator helps to minimize retesting.

Simply inspired by you.
