

PRODUCT HIGHLIGHTS

POLYSOMNOGRAPHY COURSES

The Atlanta School of Sleep Medicine and Technology is a premier training facility for physicians, technicians & industry professionals in the field of sleep medicine. Our school is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education for physicians and approved by the Board of Registered Polysomnographic Technologists (BRPT) to provide continuing education courses toward the recertification of sleep technologists. Since 1992, we have provided those in the field of sleep medicine with the comprehensive educational opportunities that are needed to learn, grow and be successful. www.sleepschool.com 678-651-2000 Circle Card # 49

AUDIO MONITORING FOR THE SLEEP LAB

Louree Electronics manufactures audio monitoring systems; several of which are especially designed for sleep applications. The system delivers crisp, clear audio, allowing the technician to closely monitor the patient. The technician can listen to the patient hands-free and needs only to press a switch to talk to the patient. The audio system consists of a speaker/microphone for wall mounting in the patient's room and a desktop receiver for the control room. The receiver has volume control and output to a VCR/DVR for recording along with an input for audio playback. For more information call 818-994-6498. Circle Action Card # 51

NEW OXYGEN DELIVERY DEVICE

OxyMask is a new oxygen delivery device that deploys technology within an open oxygen system that utilizes a Diffuser Technology and incorporates a small umbrella shaped pin to create a vortex of oxygen molecules. The pinpoint accuracy of its directional flow forms a high concentration of oxygen molecules within a velocity vortex that is directed towards the mouth and nose. Patients no longer require two to four different devices during an admission in order to provide the desired therapeutic ranges. OxyMask can also deliver higher FIO2 on much lower flow rates and this same technology has now been proven to deliver effective Heliox therapy. Circle Action Card # 50 • Medtrade Booth 1254

PORTABLE DIAGNOSTIC PG DEVICE

The portable diagnostic PG device, Embletta® from Embla®, is the world standard for home sleep studies, and fulfills the American Academy of Sleep Medicine recommendations for portable monitoring. The Embletta is the PG device of choice, boasting over half million studies worldwide, and has been designated by the American Sleep Medicine Foundation for use in their landmark study on Portable Monitoring in the Diagnosis and Management of Obstructive Sleep Apnea. Along with its user-friendly software, the Embletta is ideal for the direct measurement of sleep quality and sets the standard for diagnosing Sleep Disordered Breathing. 888-662-7632 or www.embla.com. UNPARALLELED NATIONAL COVERAGE

Hill-Rom® Medical Equipment Management Services provides unparalleled national coverage with almost 14,000 respiratory products (over 6,000 ventilators) available through over 200 service centers providing 1,400 field-based service personnel; and almost 175,000 pieces of rental equipment – all backed by a 24/7 national call center. Hill-Rom is a name you can trust with 78 years of proven experience serving the medical community. From on demand to seasonal and long-term agreements to customized asset management programs, Hill-Rom is here to help ensure you have the moveable medical equipment that you need, when you need it. Learn more from Hill-Rom: visit www.hill-rom.com or call 1-800-257-7477. Circle Card # 54

VERSATILE ECG/SPIROMETRY UNIT

Futuremed introduces the P8000 Power, an economically priced instrument that lets the user start with a resting ECG and add spirometry or exercise stress testing. The P8000 has a full keyboard and the unit's high resolution screen allows real time display of Flow/Volume loops or time/volume curves. Preview ECG tracings before printing. Electrical power is backed by a rechargeable battery. Reports are available complete with diagnosis if desired. Meets all ATS, OSHA and Social Security standards. Visit us at www.futuremedamerica.com, or call 1-800-222-6780 for more information on the P8000 or any of our other fine products. Circle Action Card # 53

AUTOMATIC RESPIRATORY PRODUCTS

VORTRAN manufactures a line of low cost, single patient, automatic respiratory products: VORTRAN Automatic Resuscitator- MRI safe, automatic resuscitator for transport or emergency ventilation for pediatric/adult patients 22 lbs. and above. E-Vent Case™- for rapid emergency ventilation deployment in any Mass Casualty Incident. PercussiveNEB™- inexpensive, hi-frequency airway clearance percussive device. VORTRAN IPPB™- easy to use IPPB w/o the capital equipment expense. Hi-Flow 70 Compressor custom manufactured meeting hi-flow requirements unique to PercussiveNEB and VORTRAN-IPPB. 800-434-4034. Circle Action Card # 56

BRONCHIAL PROVOCATION DEVICE

The TURBOAIRE CHALLENGER from EQUILIBRATED BIO SYSTEMS, INC. is an excellent source of portable arctic air for bronchial provocation and Exercise Induced Asthma studies. Perform bronchial challenge testing using **cold air**, without the wait or worry associated with obtaining methacholine. Schedule tests when convenient for both the patient and you. The TURBOAIRE CHALLENGER supplies **cold air** any time, anywhere, economically. Call us toll-free at 800-327-9490 or visit us online at www.ebsmed.com. Circle Action Card # 55

ROCHE HIGH VOLUME ABG ANALYZER

The Roche cobas b 221 analyzer is a complete blood gas solution designed for high-volume use. Delivers time & cost efficiencies. Maximizes uptime while providing extreme convenience & control. Configurable menu has options for blood gas, electrolytes & metabolites. Built-in AutoQC® module holds up to 40 days of QC material & automatically provides programmable QC regimens, lock-outs, & lot-to-lot comparisons. Combines with an online, real-time, peer review QC program that leads the industry for QC reporting. Powerful connectivity options capture and report data for max compliance. For optimum control, OMNILink instrument management software remotely manages analyzers from one central workstation. Circle Card # 57

RUDDLPH'S NEW V2™ FULL FACE MASK

NEW Full Face V2™ Mask from Hans Rudolph. Designed from years of feedback from key Sleep Professionals, RTs, Patients, & HomeCare Dealers. The V2™ offers guaranteed patient satisfaction with an ENTIRELY NEW SEAL TECHNOLOGY incorporating a Soft Anatomical Flange that follows any face contour. The New V2™ airtight leak free face mask is available in five sizes. The V2™ Headgear attaches to plastic support braces on the outside of the mask which allows for less strap tension and less facial pressure. The V2™ also features a detachable swivel port and micro-hole ventilation that allows CO2 to escape with minimal noise. Call 800-456-6695, Web: www.ruddolphkc.com. Circle Card # 58

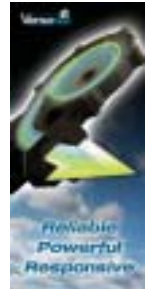

Alabama School of Sleep Medicine & Technology

SLEEP MEDICINE COURSES

The Alabama School of Sleep Medicine and Technology employs unique instructional techniques with a mix of classroom and hands-on instruction to create the most comprehensive sleep education experience available. We keep our class sizes small and pride ourselves on our proprietary training materials. The full training experience includes a balance of classroom, clinical, and technical hands-on instruction. Our pledge is to exceed expectations and provide a fulfilling educational experience covering all aspects of sleep medicine. We offer 10-, 8-, and 5-Day comprehensive courses, as well as a Scoring course, an Exam Review course, a CPAP/BiLevel Titration course, and web-based courses. Circle Card # 59

NEW TOTAL O₂ DELIVERY SYSTEM

The iVent201 ventilator is the most versatile ICU class ventilator on the market. In VersaMed's continuing commitment to providing cutting edge products to be used throughout the spectrum of care, we created the first full featured, transportable, MRI compatible, critical care grade, invasive and non-invasive ventilator available. With the advanced features of the iVent201, your patient will be comfortable throughout the trip to from the ICU to the MRI suite or anywhere they need to go, even home! With its competitive price and unlimited upgradeability, the iVent201 is the savviest investment for all your needs, now and in the future. Call 800-475-9239 or visit www.versa-med.net. Circle Action Card # 60 • Medtrade Booth 2140

VALUE IN PRE-OWNED EQUIPMENT

Save 30%-40% on quality, pre-owned equipment. Excellent choice for ventilators, oximeters, PFT units, end tidal CO₂ monitors, oxygen monitors, cardiac monitors, stress test equipment, defibrillators and more, backed with full warranties. Anderson Medical provides quality medical equipment while considering the customers needs and financial constraints so as to build long-term relationships based on quality, ethics and professionalism. Call (800) 805-8134 for more information or visit www.anderson-medical.com. Circle Card # 61

DIGITAL HANDHELD PULSE OXIMETER

The NONIN® 2500 PalmSAT® handheld digital pulse oximeter is the ideal choice for portable sleep testing. The PalmSAT offers many benefits over comparable oximeters, including a durable, compact design, three-year warranty, and long battery life (100 hours with four AA alkaline batteries or 45 hours with rechargeable batteries). The PalmSAT is compatible with NONIN's full line of PureLight® sensors including Soft Sensors which are designed for comfortable extended wear during sleep testing. The PalmSAT also provides 72 hours of memory storage that can be easily transferred to a PC with NONIN's nVISION software. Circle Card # 62

HOME DISINFECTION TRAINING KIT

All Control III surface and instrument disinfectants have a pleasant odor, require no ventilation and are easily disposed. **Control III Disinfectant Germicide** - Concentrated formula. 10-minute contact time for disinfection. The mixed solution can be re-used for 14 days. **Control III Laboratory Germicide** - Ready-to-use disinfectant with similar disinfecting capability as the concentrate, but added ingredients to inhibit instrument corrosion. Has a 30-day re-use life. **Control III Elite** - A ready-to-use detergent and disinfectant. Elite is effective against TB other bacteria, and viruses, including HIV-1. **Control III Home Care Kit** - Contains 2-oz. bottle of concentrate, 2-quart soak bucket with lid, measuring cup, & test strips. 800-546-7711. Circle Action Card #64

MANUAL JET VENTILATOR

Instrumentation Industries, Inc.'s Manual Jet Ventilator and Transtracheal Catheter may be the emergency intervention of choice for the patient with facial trauma, partial airway obstruction, upper airway bleeding, or otherwise difficult airway access and management. We have been providing practical solutions for health care professionals in Emergency Medicine, Respiratory Therapy, Critical Care, and Anesthesia for over 30 years. Call (800) 633-8577 or visit www.iiirespiratory.com. Circle Action Card # 63

NON-INVASIVE DELIVERY OF GAS FLOWS

VAPOTHERM is a high flow heat and humidification device for the non-invasive delivery of inspired gas flows from 0.5 to 40 liters per minute. The unique technology delivers a perfect synchronization of flow, humidity, temperature and oxygen percentage without discomfort via nasal cannula. Find out why VAPOTHERM makes all the difference. Contact us to arrange a clinical evaluation. Precision Flow device pending FDA clearance. Circle Action Card # 65

POLYSOMNOGRAPHY COURSES

The Atlanta School of Sleep Medicine and Technology offers 5 and 8 day intensive courses in clinical polysomnography for physicians, technologists, respiratory therapists, and allied health care professionals to address the needs of the entry level as well as experienced professional. The 5/day and 8/day courses are available in Atlanta, GA and San Diego, CA. Special topic courses in sleep medicine as well as board preparation courses are also available. Call 800-782-9418 or visit www.sleepschool.org for more information. Circle Action Card #66

NEW POCKET-SIZED CAPNOMETER

The new BCI® Capnocheck® capnometer from Smiths Medical, PM is a pocket-sized, fully quantitative capnometer that monitors CO concentrations and respiratory rate in one easy-to-use device. The device uses miniaturized mainstream ETCO₂ technology, providing accuracy in a lightweight, cost effective capnometer. The Capnocheck® does not need routine calibration and has multiple applications (intubation verification, an indicator for return of spontaneous circulation, routine airway management, ventilator transport & weaning). The Capnocheck® provides a fully quantitative numeric value recommended in the AHA 2005 guidelines. 1-800-558-2345, www.smiths-medical.com/capnocheck. Circle Action Card # 67 • Medtrade Booth 2027

UNIQUE LUNG SIMULATORS

Hans Rudolph offers the 5560 Series DLco Simulator with EasyLab QC Software specifically applies to PFT Labs that pharmaceutical manufacturers contract for drug studies and Quality Control & Testing of Respiratory Devices that measure the Diffusion Lung Capacity of patients. Their Series 1120 Flow / Volume Simulator is for testing and calibrating peak flow meters, spirometers; and research requiring ATS and custom waveforms. The Series 1101 Breathing Simulator for testing, training and calibration of ventilators and other respiratory devices. Hans Rudolph, inc., ph: 816-363-5522, USA & Canada: 800-456-6695, fax: 816-822-1414, email: hri@rudolphkc.com, Web: rudolphkc.com. Circle Action Card # 68

PRODUCT HIGHLIGHTS

NEW CUFFLESS SUPRALARYNGEAL AIRWAY

The SLIPA airway represents the first cuffless supralaryngeal airway that is superior to other equivalent airways because it maximizes on the space available for trapping and storing liquids that could be aspirated if regurgitation occurs during anaesthesia or resuscitation. Air cushions limit that possibility. Being preshaped, selection of the best site for sealing is achieved with resultant good quality seal pressures and the relief of pressure is achieved at selected sites where injury to vulnerable nerves may occur. This illustrates a number of design advantages and lowers costs. Visit www.slipa.com/index.php and www.arcmedical.com. Call ARC Medical at (800) 950-ARC1 Circle Action Card # 69

INDUCTANCE PLETHYSMOGRAPHY SYSTEM

The Sleepmate RIPmate™ meets the new AASM Technical Respiratory Rule recommendations for accreditation & scoring. Designed with a washable one-size-fits-all belt and buckle. Plugs directly into the AC input of any headbox with NO additional software needed. Patient set-up is simple; As easy to use as our standard piezo effort belts. Provides a reliable effort signal that eliminates effort signal loss and false paradoxical signals. Ships with a RIP Education CD and will be upgradeable with a "sum" channel that does not require calibration, and can be used for identifying paradoxical breathing. Visit Sleepmate.com or call 1-800-639-5432 for more information. Circle Card # 70

TRANSTRACHEAL OXYGEN

Transtracheal Systems is a medical device manufacturing company that specializes in the design and production of innovative oxygen therapy products. Each product in our line is designed to improve oxygenation, ambulation, and quality of life for patients requiring continuous supplemental oxygen. Our core product since 1986 has been the SCOOP product line of transtracheal catheters. Over 160 references in the medical literature testify to the superior clinical benefits of SCOOP catheters over nasal prongs. SCOOP catheters reduce resting flow rates 50-60%, while insuring 24 hours per day compliance with prescribed oxygen therapy. Circle Action Card # 71

ORIGINAL INDUCTIVE PLETHYSMOGRAPH

Ambulatory Monitoring, Inc. provides the Intuctotrace original inductive plethysmograph design - standard for monitoring respiratory volume changes from the chest/abdominal wall. Respiratory patterns reflecting intercostal/abdominal changes, summed in a 3rd channel, identify obstructive apnea. The Inductotrace is now enhanced by the addition of Inductoview Software with Personal Measurement Device, which provides an effective method to capture respiratory data by adding a simple interface to Windows 9X/NT via USB eliminating the need for A-to-D cards. For more information, call 800 341-0066 or visit www.ambulatory-monitoring.com. Circle Action Card # 72

Ambulatory Monitoring, Inc.

OUTFIT YOUR LAB OR CLINIC WITH NSI

NeuroSupplies Integra™ is a leading distributor of a wide range of neurological and sleep studies supplies required for electroencephalograph, evoked potentials, electromyography and sleep disorders testing. We supply air pressure transducers, snore sensors, electrodes, adhesive paste and gels for electrode application, educational materials and other necessities. NSI offers the most complete and highest quality range of products designed to outfit your lab or clinic at the most affordable pricing. For a complete listing of our products please visit www.integraneurosupplies.com. Toll-free number 1-800-654-2873 Fax 609-275-5363. Circle Card # 73

AIRWAY CLEARANCE SYSTEM

Electromed, Inc.'s SmartVest® Airway Clearance System uses High Frequency Chest Wall Oscillation (HFCWO) therapy to deliver effective and well-tolerated airway clearance treatment for patients who are otherwise at risk of developing respiratory infections from retained secretions. The Company's new Trimline™ Model emphasizes convenience in providing HFCWO therapy. The SmartVest system is Portable, Programmable, and Multi Positional. The vest is made of a soft fabric material, is washable, and provides treatment on a full coverage basis. Call us at 1-800-462-1045 or visit www.electromed-usa.com. Circle Action Card #74

QUALITY TRACINGS AND EASY CLEAN-UP

FMI proudly distributes top quality sleep and neurology products from leading manufacturers. Nuprep™ skin prepping gel and conductive paste have been used successfully over the past 15 years in hundreds of sleep centers and hospitals in the U.S. and abroad. The abrasive in patient-friendly Nuprep gel helps lower impedances at the electrode site, helping to improve tracings. The washable, non-drying formulation of Ten20 Conductive paste makes cleaning up easy and quick. For more information call Faith Medical Inc @ 800-600-1390 or visit us at one of our upcoming conferences: FOCUS or APSS. Circle Action Card # 75

TWO NEW SENSORS FOR SLEEP TESTING

Cadwell Laboratories, Inc. has begun shipping an SpO2 Oximeter sensor and a Nasal Pressure Airflow sensor to be used with the Cadwell Easy® Ambulatory and Easy III sleep diagnostic systems. The modules use Cadwell's EasyNet® communications protocol to share data with these and other Cadwell EasyNet sensors like limb movement and body position. EasyNet manages the transfer of information between multiple networked modules worn by the patient. These plug and play modules increase patient comfort and mobility with their small size. For additional information contact: Bill Antilla, RPSGT Senior Product Manager Cadwell Laboratories, INC. 800-245-3001 Circle Action Card #76

SERVO VENTILATORS FROM MAQUET

For 30+ years, SERVO ventilators have been recognized as the leading name in ventilation technology. From its non-invasive option on the SERVO-i to the new SERVO-s for chronic care, SERVO is recognized for providing ventilation for neonatal, pediatric & adult patients. SERVO's graphical representation of measured & calculated values makes for easy interpretation. SERVO-i ventilators are available with Maquet's proprietary Open Lung Tool-life-saving software for advanced monitoring & feedback that optimizes gas exchange & oxygenation, minimizes ventilator time & prevents ventilator-induced injuries. (888)-MAQUET3 or maquet.com. Circle Card # 78

LEADER IN SLEEP MEDICINE EDUCATION

The School of Sleep Medicine, Inc., a member of the Stanford Univ. Center of Excellence for the Diagnosis & Treatment of Sleep Disorders is globally recognized as the leader in sleep medicine education. We take pride in providing comprehensive, state-of-the-art information regarding the evaluation, diagnosis & treatment of sleep disorders patients. Alumni include physicians, technologists and health care professionals worldwide. Our faculty is comprised of experts recognized for their work in clinical sleep medicine, sleep research, & technology. More than 80% of board certified sleep specialists are SSM alumni. We offer a variety of courses and other materials to meet the educational needs of health care providers in sleep medicine. Call 650-326-1296, fax 650-326-1295 or visit sleepedu.net. Circle Card # 77

NEW TRANSPORT VENTILATOR

The pNeuton Transport Ventilator (pronounced new-ton) provides adult/pediatric volume targeted ventilation and high performance CPAP for use in Hospital, MRI and EMS environments. Pure pneumatic technology eliminates the need for any batteries. A choice of 100% or 65% oxygen delivery lets you significantly extend transport times — up to twice what you might expect. pNeuton is also available in the model A version with an internal patient disconnect alarm system. The alarm is audible and visual with a remote output for an external monitor. See the rugged versatility that makes pNeuton your choice in transport ventilation. Visit www.pneuton.com or call 888-448-1238. Circle Reader Action Card # 79

NEW PATIENT SCHEDULING OPTION

Compumedics announces release of Scheduler for ProFusion NeXus. Scheduler is far more than a simple calendar-type appointment planner. Keeping with the NeXus design as a total Lab Management System, Scheduler allows centralized patient appointment planning for multiple beds, even multiple facilities, while seamlessly coordinating availability of staff, physicians, rooms and equipment. These extensive capabilities are delivered through a simple, intuitive user interface. Other features include: Wait list, priority status, staff vacation adjustments, insurance status, next available appointment by facility, drag and drop scheduling and more. The NEW Scheduler for ProFusion NeXus redefines total Lab Management Software - only from Compumedics. Circle Action Card # 80

NEED CEU'S TONIGHT?

One-stop shopping for continuing education & career advancement exclusively for healthcare professionals. Highest quality, state-of-the-art, non-traditional educational programs & seminars available. Updated yearly, always timely. Stay ahead of the changes in healthcare. Join us & step into the new age of education. 120 Courses & Growing. 400+ Continuing Education Credits: Online, CDROM, PDF by email, & hardcopy/UPS courses in these categories: Respiratory, Nursing, Sleep Studies, Home Care, JCAHO recommended topics, General Healthcare and Diversity Issues. Need CEU's tonight? Call 800 990-2377 or visit www.ceu.org. Circle Action Card 86

O2 THERAPY FOR THE 21ST CENTURY

Innovative eyewear for patients requiring continuous supplemental oxygen. With Oxy-View eyeglass frames, we have eliminated the bothersome aspects of wearing both eyeglasses and a nasal cannula simultaneously by providing a way to do both at once. Call us today to find out more about Oxy-View oxygen therapy eyewear at 877-699-8439 and/or visit our website at www.oxyview.com. Please visit our booth at the 8th Annual Focus Conference in Nashville, as well - We'll see you in booth #102. Circle Action Card #82.

NEW CO2 MONITORING DEVICE

Nihon Kohden introduces The Cap One end-tidal CO2 monitoring device, making CO2 monitoring easier and accurate. This new design puts the sensor immediately under the nostril minimizing all dead space. The result is an instrument that does not need calibration, has no delay, produces higher precision results and is humidity resistant. Use the new JE-921 PSG/EEG amplifier and benefit from the built in Cap One option or choose the free standing version. PSG patient interface includes adaptor for nasal pressure. Contact Deidra Millmore at (800) 325-0283 ext. 3330 for more information. Circle Card # 83

NEW CLOSED SUCTION SYSTEM

The Portex® SuctionPro™ 72 Closed Suction System, is designed for airway suctioning of critically ill patients and is indicated for 72 hours of continuous use. The closed system reduces risk of cross contamination and the lockable end cap prevents inadvertent suctioning. This product features an unobstructed evacuation pathway making it easy to remove secretions. All product codes include a swivel connector to reduce torque to the patient and a 15/22 mm connector to accommodate various ventilator circuit sizes. Portex® SuctionPro™ 72 systems offer value and a time-saving solution for therapists, nurses, and medical facilities. For more information call 800-258-5361. Circle Card # 84 • Medtrade Booth 2027

NEGATIVE INSPIRATORY FORCE METER

Introducing the NIFometer - The first Disposable Negative Inspiratory Force Meter is now available from Mercury Medical®. Quick and Easy - NIFometer is small, compact and self-contained. It connects directly to the ET tube eliminating the need for separate tubing and connectors. Safe - The single patient use feature eliminates the risk of cross contamination. Reliable - No calibration required and accurate to + 2 cm H2O between -20 to -30. Memory pointer records highest force. Convenient - Small and compact (only 30 grams), fits in pocket - readily available for added efficiency. For more information, contact Customer Service at 800-237-6418. Circle Action Card # 85

INCA® NASAL CPAP ASSEMBLY

Your connection for Neonatal CPAP & Bubble CPAP Systems. o Five incrementally-close, anatomically proportional nasal cannulae sizes for a custom fit. o Clear, extra-soft cannulae helps maintain integrity. o Stay-flex tubing provides custom shaping and maximum stability. o Foam Block retainers provide secure placement and stability. o Chin strap is available and may prevent mouth leaks. o INCA is available in complete sets as well as replacement sets. o Accessory Pack provides extra knit cap sizes, chin straps, hook fasteners and foam blocks. For more information contact Cooper Surgical: 203-601-5200 or www.coopersurgical.com. Circle Action Card # 81

INDUCTIVE (RIP) INTERFACE CABLES

SLP Inc. introduces the new SleepSense Interface cables that accompany the SleepSense Inductive/RIP bands. SLP provides two separate interface cables for abdomen and thorax with a variety of connection methods that will effortlessly suit most any PSG system on the market. SleepSense interface cables are a direct plug and play replacement for any Piezo effort sensor and last for over 700 nights. Powered by an internal battery, the system specific interface cables require no adjustments or switches. The combination of the SleepSense RIP bands and interface cables provide an excellent signal throughout the night. (888) 757-7367 www.SleepSense.com Circle Action Card # 87

EDUCATION TO ADVANCE YOUR CAREER

Advance your career on your schedule. 24/7!
