

PRODUCT HIGHLIGHTS

RAPIDPOINT 400/405 SERIES

The Bayer Rapidpoint 405 is the first blood gas system designed for point of care testing to offer an integrated CO-oximetry module. Provides an accurate assessment of the oxygenation status of critically ill patients, and allows for improved therapeutic actions & better patient outcomes. The analyzer offers zero maintenance, intuitive sample management, and on-board QC management. Reporting pH/blood gas, electrolytes, glucose, hematocrit, & CO-oximetry results within 60 secs, the Rapidpoint 400 Series systems offer the fastest response of any point of care blood gas system. Visit bayer.com or call 800-255-3232. Circle Action # 60

AUDIO MONITORING FOR THE SLEEP LAB

Louroe Electronics manufactures audio monitoring systems; several of which are especially designed for sleep applications. The system delivers crisp, clear audio, allowing the technician to closely monitor the patient. The technician can listen to the patient hands-free and needs only to press a switch to talk to the patient. The audio system consists of a speaker/microphone for wall mounting in the patient's room and a desktop receiver for the control room. The receiver has volume control and output to a VCR/DVR for recording along with an input for audio playback. For more information call 818-994-6498. Circle Action Card # 61

Louroe ASK4 KH 800

INFORMATION MANAGEMENT SOLUTION

AegisPOC is the new critical care and point-of-care connectivity & information management solution from Laboratory Data Systems. Provides connectivity to vendors, blood gas, glucose, coagulation & other devices while providing functionality to manage & ensure compliance of critical care and POC testing throughout the facility. Manages pt tests, QC, calibrations, operators & more. Tailored to each customer's needs including workflow & customization of reports & user interface. Multi-facility support is available allowing for a single system to manage multiple hospitals. Call (813) 571-7400 or visit www.labdatasys.com. Circle Action Card # 62

TRANSTRACHEAL OXYGEN

Transtracheal Systems specializes in the design & production of innovative O2 therapy products. Each product is designed to improve oxygenation, ambulation, and quality of life for patients requiring continuous supplemental O2. Our core product for the past 18 years has been the SCOOP line of transtracheal catheters. Over 150 references in the medical literature testify to the superior clinical benefits of SCOOP catheters over nasal cannula. SCOOP catheters reduce resting flow rates 50-60%, while insuring 24 hours per day compliance with the physician's oxygen therapy prescription. Visit www.tto2.com or call 800-527-2667. Circle Action Card # 63

NEW NASAL PILLOWS SYSTEM

ResMed's Mirage Swift nasal pillows system is one of the lightest nasal pillow systems on the market. It weighs approximately 2.5 oz (70 g) and rests lightly at the entrance of the nostrils. The Mirage Swift air tube features interchangeable positions (up, down, left, right) to afford patients more choices in sleeping positions. Its innovative design enhances seal and stability and eliminates the need to over-tighten. The Mirage Swift also reduces inventory, as each unit ships with three sizes of pillows and its own carry bag (including an educational CD, quick-fit guide, and user instructions). www.resmed.com 800.424.0737. Circle Reader Card # 64

VERSATILE ECG/SPIROMETRY UNIT

Futuremed America introduces the P8000 Power, an economically priced instrument that lets the user start with a resting ECG and add spirometry or exercise stress testing. The P8000 has a full keyboard and the unit's high resolution screen allows real time display of Flow/Volume loops or time/volume curves. Preview ECG tracings before printing. Electrical power is backed by a rechargeable battery. Reports are available complete with diagnosis if desired. Meets all ATS, OSHA and Social Security standards. Visit us at www.futuremedamerica.com, or call 1-800-222-6780 for more information on the P8000 or any of our other fine products. Circle Action Card # 65

AUTOMATIC RESPIRATORY PRODUCTS

VORTRAN manufactures a line of low cost, single patient, automatic respiratory products: VORTRAN Automatic Resuscitator- MRI safe, automatic resuscitator for transport or emergency ventilation for pediatric/adult patients 22 lbs. and above. E-Vent Case™- for rapid emergency ventilation deployment in any Mass Casualty Incident. PercussiveNEB™- inexpensive, hi-frequency airway clearance percussive device. VORTRAN IPPB™- easy to use IPPB w/o the capital equipment expense. Hi-Flow 70 Compressor custom manufactured meeting hi-flow requirements unique to PercussiveNEB and VORTRAN-IPPB. 800-434-4034. Circle Action Card # 66

NEED CEU'S TONIGHT?

One-stop shopping for continuing education and career advancement exclusively for healthcare professionals. Provide highest quality, state-of-the-art, non-traditional educational programs & seminars available. Updated yearly, always timely and stay ahead of the changes in healthcare. Join us & step into the new age of education. 120 Courses & Growing. Over 400 Continuing Education Credits: Online, CDROM, PDF by email, & hardcopy/UPS courses in these categories: Respiratory, Nursing, Sleep Studies, Home Care, JCAHO recommended topics, General Healthcare and Diversity Issues. Need CEU's tonight? Call 800 990-2377 or visit us online at www.ceu.org. Circle Action Card 67

ROCHE OMNI®S SYSTEM

The Roche OMNI® S system is a complete blood gas solution designed for hi-volume use. Delivers time/cost efficiencies. Maximizes uptime while providing convenience & control. Configurable menu has options for blood gas, electrolytes & metabolites. Built-in AutoQC® module holds up to 40 days of QC material & automatically provides programmable QC regimens, lock-outs & lot-to-lot comparisons. This combines with an online, real-time, peer review QC program that leads the industry. Connectivity options capture & report data for max compliance. For optimum control, OMNILINK instrument management software remotely manages OMNI analyzers from one central workstation. Circle Card #68

NEW FULL FACE CPAP MASK

The New 7600 Vmask is an Oro-Nasal (Full Face) CPAP/BiLevel Mask that can be tightened or loosened in the middle of the night w/o affecting the integrity of the leak free seal because there is no hard frame or thin seal. All 5 Sizes of the mask are made of a single piece of soft silicone that fits under the chin and the 5 more 1/2 sizes that come when using the soft silicone rubber button-on Sensa Seals. The complete mask is made of Dishwasher Safe materials. Great fits, durability and low dealer price are what have driven this New Mask to be the top choice of Sleep Labs, Doctors, Patients and Dealers. This level of success has driven us to make the modifications to fit everyone's face. Call us at 800-456-6695. Circle Action Card # 69

90° SWIVEL ADAPTER

At first glance this product looks like a simple 90° hose barb fitting. However, this patent pending fitting swivels a full 360 degrees! Imagine the possibilities! Hose assemblies that do not kink. Improved safety. More streamlined appearances. All brought to you by *Your Medical Gas Fittings Specialist™*! Contact Bay Corporation for details and for information on Bay's complete line of medical fittings, connectors, adapters and hose for respiratory care & anesthesia. Call us toll-free at 888-835-3800 and/or visit us online at www.baycorporation.com. Circle Action Card # 70

HIGH EFFICIENCY AEROSOL MAXIMIZER

Healthline offers the Medicator® family of high-efficiency, environmentally-protective aerosol drug delivery devices for bronchodilators, antibiotics, pentamidine, morphine, & methacholine. Like a "holding chamber" for a nebulizer. Routine treatment time as little as 3 min; less with undiluted albuterol; 1-2 mins for methacholine without a dosimeter. New - the Asthma Rescue Kit for ER & ICU, incorporating the Medicator with a 90 mL continuous nebulizer & reservoir bag, will provide economical & standardized Heliox and/or bronchodilator therapy in a closed, low-flow, 0-resistance system w/ integral exhalation filtration and a portless mask. Simply, quickly, inexpensively. (877) 626-2626 or aerosol-medicine.com. Circle Action Card # 71

NEW CONTINUOUS NEBULIZER

The HOPE continuous nebulizer is improved CNBT technology, which relieves the practitioner of the laborious task of remixing SVN's every 15 minutes. HOPE allows you the ability to mix medications from one to eight hours. Heliox administration couldn't be easier, with a length of oxygen tubing and a tank of Heliox, you can turn the HOPE nebulizer into an inexpensive alternative to a tube and ventilator. With or without helium, the HOPE nebulizer is the best product you will find to reverse impending respiratory failure, severe asthma, pneumonia, and COPD. Call 800-242-8778 or visit www.bandb-medical.com. Circle Action Card # 72

NEW SWIVELING HOSE HOLDER

B&G Steel Manufacturers introduces the BRO-GHO Hose Buddy designed to be used with CPAP, air supply and oxygen hoses. This unique device turns when your patient does and takes the drag out of air supply hose, often a problem encountered with home CPAP therapy. Increase patient compliance, use the BRO-GHO Hose Buddy! Solid steel, powder coated, adjustable, swivel arm, black or white. Limited lifetime warranty. American made. Call 704-922-1765 or visit www.bro-gho.com for more information. Distributor inquiries also welcome. Circle Action Card # 73

NEW REUSABLE AIRFLOW SENSOR

Dyemedix Corporation now has a complete line of Polyvinylidene Fluoride reusable sensors to complement their existing line of disposable PVDF sensors & electrodes. The RealFlo™ Reusable Airflow Sensor is available as a highly accurate sensor capable of detecting flow limitations associated with Respiratory Effort Related Arousals (RERA) or with a narrower filter to produce waveforms similar to those seen with thermocouple/thermistors technology. For more information on RealFlo and other Dyemedix reusable and disposable sensors visit www.dyemedix.com or call toll free 888.212.1100. Circle Action Card 74

TREATMENT FOR INSUFFICIENT COUGH

Patients w/ neuromuscular weakness or other paralytic condition are often unable cough effectively. While vibratory techniques are often effective in mobilizing retained secretions, they require active coughing or tracheal suctioning to remove them. The CoughAssist simulates a cough by gradually applying a deep inhalation then shifting to an active exhalation phase. This results in peak cough flow rates in excess of 5 liters/second. This noninvasive device has been proven effective for patients with an insufficient cough due to neurological disorder or high spinal cord injury. For more info visit our website at www.coughassist.com or call us at 1-800-252-1414. Circle Action Card # 75

RESPIRATORY INDUCTIVE PLETHYSMOGRAPHY

- Superior technology for identifying and differentiating sleep apneas and for detecting hypopneas
- Greater accuracy and sensitivity
- The ability to assess thoracoabdominal coordination
- Minimization of motion artifact.

RIP is considered the best non-invasive tool in assessment of sleep related breathing disorders. For more information on RIP or other PSG products call 1-800-600-1390 or visit us at one of our upcoming conferences: APT, FOCUS, or APSS. Circle Action Card # 76

NEW FEATURES ON NASAL MASK

Former NFL running back Owen Gill & many other patients claim that the ALIZES™ Nasal Mask is the world's best nasal mask and that it has saved their life. They claim it is very comfortable and quiet. The newly upgraded ALIZES™ Nasal CPAP/BiPAP Mask is so durable and easy to use that it can withstand sterilization in a steam autoclave or pasteurization and cleaning in a dishwasher. The patients can easily custom fit & form the Nasal Mask to their nose. The soft Comfort Seal™ Foam Accessory provides the option of a soft foam cushion against their face. Call us at 800-456-6695. Circle Action Card # 77

SERVO VENTILATORS FROM MAQUET

For 30+ years, SERVO ventilators have been recognized as the leading name in ventilation technology. From its non-invasive option on the SERVO-i to the new SERVO-s for chronic care, SERVO is recognized for providing ventilation for neonatal, pediatric & adult patients. SERVO's graphical representation of measured & calculated values makes for easy interpretation. SERVO-i ventilators are available with Maquet's proprietary Open Lung Tool—life-saving software for advanced monitoring & feedback that optimizes gas exchange & oxygenation, minimizes ventilator time & prevents ventilator-induced injuries. (888)-MAQUET3 or maquet.com. Circle Card # 78

WEBSITE VOTED BEST FOR PFT SUPPLIES

Easy to search by catalog number or keyword, vacumed.com lists most common and many unusual PFT and Stress testing products, including photos, specifications, cross references, prices and quantity discounts: Filters, Mouthpieces, Nose Clips, Tubing, Breathing Valves, Gas Collection Bags, Peak Flow Meters, Gas Analyzers: O₂, CO₂, N₂, CO, Oxygen Sensors and Calibration Gases. Exercise Devices: Stationary bicycles (Ergometers) also new Pediatric Bike, Treadmills and VO₂ Calibrators. Spirometers: 10 models to choose from. PRODUCT HIGHLIGHTS

NEW CPAP INTERFACE

Hudson RCI, a division of Teleflex Medical, is proud to introduce the NASAL-AIRE® II Critical Care CPAP Interface. Unique design features make it the ideal patient interface for Non-Invasive Ventilation. The ergonomic design fits any face and eliminates leaks and pressure points, allowing it to be worn for long periods of time without discomfort. A simple neck strap included with each system replaces the bulky and restrictive headgear common to most other interfaces. The NASAL-AIRE II Critical Care comes in five sizes with a handy sizing gauge available to simplify the fitting process. For more information, contact 1-800-399-1039 or cshudson@teleflexmedical.com. Circle Action Card # 80

TRUSTED, FULL RANGE HME

For 15 years, the ThermoFlo™ System from ARC Medical has been trusted to provide humidification to patients from intubation to extubation. ThermoFlo™ has earned a reputation for being the finest in its field of HME devices. No competitive product can provide higher humidification or lower resistance to flow than the ThermoFlo™ System. Secretions are effectively sequestered in the Secretion Solution compartment of the ThermoFlo™ Filter S. ThermoFlo™ Trach is a new addition to the ARC line of products. Call 800-950-2721 for information or visit us at www.arcmedical.com. ARC Medical - Trust earned through 15 years of experience. Circle Action Card # 81

NEW VENTILATOR INTRODUCED

The Newport e500 is a critical care ventilator for infant/pediatric & adult application. Can be used for invasive & non-invasive vent. Provides comprehensive mode selection, including dual modes VT/PC & VTPS, expanded monitoring & a smart alarm system. Self-calibrating, integrated oxygen monitor, panel lock & internal battery back-up improve ventilator management & enhance patient safety. Integrated graphics monitor offers comprehensive diagnostic information with touch screen ease for complete waves, loops and numeric analysis. For information call 800.451.3111 ext. 282 or visit ventilators.com. Circle Action Card # 82

ORIGINAL INDUCTIVE PLETHYSMOGRAPH

Ambulatory Monitoring, Inc. provides the Inductotrace original inductive plethysmograph design - standard for monitoring respiratory volume changes from the chest/abdominal wall. Respiratory patterns reflecting intercostal/abdominal changes, summed in a 3rd channel, identify obstructive apnea. The Inductotrace is now enhanced by the addition of Inductoview Software with Personal Measurement Device, which provides an effective method to capture respiratory data by adding a simple interface to Windows 9X/NT via USB eliminating the need for A-to-D cards. For more information, call 800 341-0066 or visit www.ambulatory-monitoring.com. Circle Action Card # 83

**Ambulatory
Monitoring, Inc.**

EasyOne SPIROMETRY SYSTEM

ndd Medical Technologies offers the EasyOne Spirometry System which uses the company's patented ultrasonic flow measurement technology. This cutting edge highly configurable spirometer features FVC, FVL, SVC and MVV testing. The graphic curve display allows quick assessment of results. Meets ATS recommendations for diagnostic spirometry. The EasyOne runs on AA batteries for portability and can interface with a printer or PC. EasyWare software allows for long term storage of patient records. For more information call us at 877-904-0090 or visit our website at www.nddmed.com. Circle Action Card # 84

HI-FLOW OXYGEN DELIVERY

The Standard in High Flow Therapy, Vapotherm, Inc. produces the Vapotherm 2000i, a respiratory therapy device that allows hi-flows of breathing gases to be delivered by nasal cannula or other interfaces using a unique membrane technology to warm and saturate the gas stream. The system is used to deliver breathing gases in a variety of indications for neonatal, pediatric and adult patient populations. The 2000i includes a series of indicators and alarms to allow the clinician to deliver safe and effective therapy. Call 866-827-6843 or visit us online at www.vtherm.com. Circle Action Card # 85

NEW SLEEP SENSORS FROM SLP

SLP Inc. recently introduced the SleepSense® family of sensors for recording sleep studies. Included are sensors for respiratory effort (disposable/reusable), airflow, motion detection, body position & snoring. In addition to the SleepSense® products, SLP is marketing a disposable screening test for sleep apnea. The SleepStrip® is a cost-effective disposable screening tool marketed in the U.S. by Medline Industries. The Company has also introduced the BiteStrip®, a disposable screening tool for the detection of bruxism. This product is being marketed by Great Lakes Orthodontics. Circle Action Card # 86

NEW CPAP MOISTURE THERAPY PRODUCT

"Compliance made Simple", CPAP Moisture Therapy (tm) is a new product especially designed to break the dry skin cycle and lock in moisture so essential to users of CPAP equipment used to treat sleep apnea. For over a decade LouSal Enterprises Inc. has addressed the chaffing and dry nose issue that has been documented by caregivers during oxygen and CPAP therapies. CPAP Moisture Therapy is available to OEM account, Homecare Dealers, Sleep Laboratories, Hospitals, Pharmacies and other caregiving institutions. Inquires/Samples, LouSal Enterprises Inc., Fax 1-817-560-5562. Circle Action Card # 87

RESPIRATION MONITORS

Rochester Electro-Medical, Inc. offers a complete line of Respiration Monitors for recording nasal/oral airflow. The newest version of their popular UltraFlow™ cannula-style monitor is available in Adult/Child sizes & features a thinner, smaller design that is strong & reliable while maintaining the flexibility needed to provide patient comfort. Inexpensive Disposable Respiration Monitors are also offered in Adult & Child sizes and are priced as low as \$50 for a package of 10. For complete pricing & product information, visit www.RochesterSleep.com or check out the new 2006 Product Catalog. (800) 328-5544. Circle Card # 88

NEW 3 IN 1 HANDHELD MONITORS

Smiths Medical PM, Inc. offers Pulse, SpO2, and CO2 monitoring, in easy-to-use handheld devices. The BCI® 3301 is an affordable pulse oximeter, while the BCI® 3303 provides pulse ox monitoring w/ alarms, rechargeable battery, and protective rubber boot. MiniCorr Digital Pulse Oximeter monitors SpO2, pulse rate & pulse strength. All PC compatible, or can be used with an optional external printer. FingerPrint, Pulse Oximeter has an integral printer and protective rubber boot. Capnocheck, II Capnograph/Oximeter full-featured monitor provides ET/CO2, inspired CO2, respiration rate, SpO2, and heart rate measurements. Circle Action Card # 89

BRONCHIAL PROVOCATION DEVICE

The TURBOAIRE CHALLENGER from EQUILIBRATED BIO SYSTEMS, INC. is an excellent source of portable arctic air for bronchial provocation and Exercise Induced Asthma studies. Perform bronchial challenge testing using **cold air**, without the wait or worry associated with obtaining methacholine. Schedule tests when convenient for both the patient and you. The TURBOAIRE CHALLENGER supplies **cold air** any time, anywhere, economically. Call us toll-free at 800-327-9490 or visit us online at www.ebsmed.com. Circle Action Card # 90

NEW SLEEP AUDIO BROADCAST

Sleepmate® Technologies announces the sleep industries first bi-weekly *SleepNews™* audio broadcast by Sleepmate Radio®. The broadcasts can be found at Sleepmate.com where you will also find information on subscribing free of charge to the *SleepNews™* podcast. *SleepNews™* includes the latest in industry news including trade show calendars from a variety of media sources. Each podcast is generally 10-15 mins long. No advertising is allowed, however submissions for enclosure in the calendar can be sent to JAnderson@Sleepmate.com for consideration. Visit Sleepmate.com to learn more about our innovative people and products or call 1-800-639-5432. Circle Action Card # 91

AIRWAY CLEARANCE SYSTEM

Electromed, Inc.'s SmartVest® Airway Clearance System uses High Frequency Chest Wall Oscillation (HFCWO) therapy to deliver effective and well-tolerated airway clearance treatment for patients who are otherwise at risk of developing respiratory infections from retained secretions. The Company's new Trimline™ Model emphasizes convenience in providing HFCWO therapy. The SmartVest system is Portable, Programmable, and Multi Positional. The vest is made of a soft fabric material, is washable, and provides treatment on a full coverage basis. Call us at 1-800-462-1045 or visit www.electromed-usa.com. Circle Action Card #92

NEW TOTAL O2 DELIVERY SYSTEM

CHAD Therapeutics offers the revolutionary TOTAL O2 Delivery System, which combines stationary and portable oxygen in one safe, simple device. It provides the flexibility to fill seven popular cylinder sizes to a full 2000 psi capacity and can be used with any one of CHAD's reliable conserving devices or oxygen therapeutic devices. It also includes an Oxygen Purity Sensor (OPS), which insures continuous therapeutic oxygen, and a patented filling mechanism that enables patients to fill their portable cylinders in the convenience of their own homes. To learn more, visit www.TOTALO2.com or contact CHAD at 1-800-423-8870 (USA) or (818) 882-0883. Circle Action Card # 93

MEDCARE IS NOW "EMBLA"

Medcare is now "Embla". We are a new company with a new focus on being closer to our customers. With a global headquarters now in Denver, Colorado we are closer to our largest customer base. Centralized and expanded support teams in both Europe and North America are equipped to meet the needs of our expanding customer base. We are still the global leader in sleep diagnostics with Rembrandt & Somnologica used in over 60 countries throughout the world. Embla is more than just a new name; it is a new way of providing sleep diagnostic solutions throughout the world. Circle Action Card # 94

SPIROMETER AND PF LAB FILTERS

The NAGEL Network, Inc. offers the four leading manufacturers of viral filters guaranteed to fit any spirometer or PF Lab. As the leading national distributor of filters we guarantee the lowest prices. Same day shipping. Overnight delivery also available. Bacterial filtration efficiency is 99.99%. Viral filtration efficiency is 99.90%. Resistance is as low as .4cm H2O/L/sec. Dead space approx. 50cc. Filtrate™, the media used, is comprised of permanent electrets that trap viruses and bacteria to prevent contamination. For more information, visit www.Nagelnetwork.com or call us at 800-217-1913. Circle Action Card # 95

POLYSOMNOGRAPHY COURSES

The Atlanta School of Sleep Medicine and Technology offers 5 and 8 day intensive courses in clinical polysomnography for physicians, technologists, respiratory therapists, and allied health care professionals to address the needs of the entry level as well as experienced professional. The 5/day and 8/day courses are available in Atlanta, GA and San Diego, CA. Special topic courses in sleep medicine as well as board preparation courses are also available. Call 800-782-9418 or visit www.sleepschool.org for more information. Circle Action Card # 96

MANUAL JET VENTILATOR

Instrumentation Industries, Inc.'s Manual Jet Ventilator and Transtracheal Catheter may be the emergency intervention of choice for the patient with facial trauma, partial airway obstruction, upper airway bleeding, or otherwise difficult airway access and management. We have been providing practical solutions for health care professionals in Emergency Medicine, Respiratory Therapy, Critical Care, and Anesthesia for over 30 years. Call (800) 633-8577 or visit www.iirespi.com. Circle Action Card # 97

CONTINUOUS OXYGEN ANALYZER

Portable and easy to use, the MiniOX 3000 Oxygen Monitor is perfect for "in line" oxygen monitoring in such applications as hospital and home ventilators, NICU, and anesthesia delivery equipment. The MiniOX 3000 Monitor features high and low oxygen concentration alarms, automatic calibration, battery life indicators with alarms, sensor/cable disconnect alarm, and an alarm verification indicator. Powered by one 9-volt battery, the monitor provides up to 1,500 hours of use and is shipped ready-to-use, complete with oxygen sensor, coiled cable, retaining strap, tee adapter, and battery. For more information call 800-851-4500 or visit www.msanet.com. Circle Action Card # 98

MRI / TRANSPORT VENTILATOR

The pNeuton Transport Ventilator (pronounced new-ton) provides adult/pediatric volume targeted ventilation and high performance CPAP for use in Hospital, MRI and EMS environments. Pure pneumatic technology eliminates the need for any batteries. A choice of 100% or 65% oxygen delivery lets you significantly extend transport times — up to twice what you might expect. pNeuton is also available in the model A version with an internal patient disconnect alarm system. The alarm is audible and visual with a remote output for an external monitor. See the rugged versatility that makes pNeuton your choice in transport ventilation. Visit www.pneuton.com or call 888-448-1238. Circle Reader Action Card # 99

PRODUCT HIGHLIGHTS

NEW GENERIC ALBUTEROL MEDICATION

Nephron Pharmaceuticals introduces the first and only FDA approved generic version of Albuterol Sulfate Inhalation Solution, 0.042% individually foil wrapped and bar coded. Therapists or patients no longer have the exhausting task of using multi-dose bottles to measure pediatric dose strengths. Tired of paying the brand name price? Then look to the leader in innovative packaging and safe respiratory medications, Nephron Pharmaceuticals. Each vial contains 1.50 mg of albuterol sulfate (equivalent to 1.25 mg albuterol). Preservative & Additive Free. Rated AN in the Orange Book. Sterile PREDILUTED with normal saline. Call us at 800-443-4313 or visit www.nephronpharm.com. Circle Action Card # 100

NEW ACTIGRAPHY SYSTEM

The Actiwatch actigraphy system, from Respironics/Mini Mitter, enables you to record the sleep/wake patterns, light exposure and subjective scores from your sleep-disordered patients for weeks at a time. Applications for which the Actiwatch products can help you help your patients include: Insomnia, circadian rhythms and shift work, treatment effects, and RLS/PLM. These products are especially helpful for populations such as geriatrics and pediatrics. Call us at 800-685-2999 or visit www.minimitter.com. Circle Card # 101

VALUE IN PRE-OWNED EQUIPMENT

Save 30%-40% on quality, pre-owned equipment. Excellent values on ventilators, oximeters, PFT units, end tidal CO2 monitors, oxygen monitors, cardiac monitors, stress test equipment, defibrillators and more, backed with full warranties. Anderson Medical provides quality medical equipment while considering the customers needs and financial constraints so as to build long-term relationships based on quality, ethics and professionalism. NEW DESKTOP FORMAT SPIROMETER

Ferraris Respiratory introduces the KoKo LEG-
END, an intuitive color touch screen Spirometer. With all the performance of the KoKo Spirometer in a new desktop format, the KoKo LEGEND walks both physician and patient through standard testing procedures. Our realistic animated real-time incentive graphic provides that added little push to perform a good FVC effort. The KoKo LEGEND has a built-in printer as well as a direct connection for 8 x 11 printing. Test results can easily be transferred into our KoKo PFT Spirometry software via a standard USB cable. Call today for more information! 800-574-7374 or www.ferrarisrespiratory.com. Circle Action Card # 103

O2 ANALYZERS & REPLACEMENT SENSORS

On May 1st, VTI, for two decades a leading manufacturer of oxygen and blood-flow monitoring products, moves from Lowell, MA to new offices and R&D and production facilities in Nashua, NH. "It's essential we move," says VTI's VP, David Regan. "Our product lines have grown, and we're producing higher volumes for an expanding customer base." The move lets VTI accommodate more staff for increased R&D and production activities. VTI oxygen monitoring products are employed worldwide in a host of frontier applications by hospital respiratory therapists, scuba divers, the US military and scientist working in stem cell research. Call 800-550-0856 for information. Circle Action Card # 104

WHO ARE YOU?

This simple new button, available directly from Focus Publications, spells out your exact title to sleep patients and their families. Hey, let's face it, Polysomnographer is a very difficult word to say, especially for the lay-patient who's probably never even heard of the word. This simple button, hyphenating the word into syllables, properly identifies you and/or your technologists while it also cleverly accomplishes the same task with professionals at your institution who may also not know your proper title. It also helps the identity of the profession as a whole. Buttons are 2" W x 1.5" H. \$2.50 each. Min. order 5 buttons. Shipping \$3 additional. Call 800-661-5690 to order your buttons today.

HOME DISINFECTION TRAINING KIT

All Control III surface & instrument disinfectants have a pleasant odor, require no ventilation & are easily disposed. **Disinfectant Germicide** - Concentrated formula. 10-min contact time for disinfection. Solution can be re-used for 14 days. **Laboratory Germicide** - Ready-to-use disinfectant with similar disinfecting capability as the concentrate, but added ingredients to inhibit instrument corrosion. 30-day re-use life. **Elite** - Ready-to-use detergent and disinfectant. Effective against TB other bacteria, and viruses, including HIV-1. **Home Care Kit** - Contains 2-oz. bottle of concentrate, 2-quart soak bucket with lid, measuring cup, & test strips. 800-546-7711. AMBULATORY MONITORING, INC. TO MARKET TAXTEC, UNDER-THE-MATRESS SENSOR

AMBULATORY MONITORING, INC., of Ardsley, NY, has recently entered into an agreement with TAXTEC CONTROLS, INC., of Toronto, Canada, to distribute Taxtec's bed sensor into the sleep market. This under-the-mattress sensor, which indicates whether a person is in or out of bed as well as his or her precise movements, has found acceptance in long-term care and assisted living markets; and the next generation of the sensor is intended to provide caregivers with a measure of the bed occupant's quality of life. "In senior citizens, disturbed sleep may indicate a need to modify a care plan, medications, or provide assistance with activities of daily living," explains TacTex President David Lokhorst. AMI President Tom Kazlauskys states, "The addition of the Motionlogger Bed Sensor to AMI's product line provides customers an option to monitor sleep patterns without having to wear specialized equipment." For more information call Ambulatory Monitoring at 800 341-0066 or visit their website at www.ambulatory-monitoring.com.
