

Alabama School of Sleep Medicine & Technology

SLEEP MEDICINE COURSES

The Alabama School of Sleep Medicine and Technology employs unique instructional techniques with a mix of classroom and hands-on instruction to create the most comprehensive sleep education experience available. We keep our class sizes small and pride ourselves on our proprietary training materials. The full training experience includes a balance of classroom, clinical, and technical hands-on instruction. Our pledge is to exceed expectations and provide a fulfilling educational experience covering all aspects of sleep medicine. We offer 10-, 8-, and 5-Day comprehensive courses, as well as a Scoring course, an Exam Review course, a CPAP/BiLevel Titration course, and web-based courses. Circle Card # 54

NEW TOTAL O₂ DELIVERY SYSTEM

The iVent201 ventilator is the most versatile ICU class ventilator on the market. In VersaMed's continuing commitment to providing cutting edge products to be used throughout the spectrum of care, we created the first full featured, transportable, MRI compatible, critical care grade, invasive and non-invasive ventilator available. With the advanced features of the iVent201, your patient will be comfortable throughout the trip to from the ICU to the MRI suite or anywhere they need to go, even home! With its competitive price and unlimited upgradeability, the iVent201 is the savviest investment for all your needs, now and in the future. Call 800-475-9239 or visit www.versa-med.net. NEW PEDIATRIC ASTHMA CHAMBER SPACER

Visiomed Funhaler, is a new asthma chamber spacer for use in building medication delivery compliance in pediatric patients. The positive reinforcement cue provides an auditory whistle and visual spinner, activated when the child uses the proper technique for inhalation. The valved chamber holds the medication while the child inhales the adequate dose. Come by and see what adding a little "Fun" can do to improve children's asthma. The Funhaler is approved for use in children as young as 18 mths by the FDA and it is CE marked for worldwide distribution; distributed in North America by Alliance Tech Medical, Inc., www.alliancetechmedical.com. 800-848-8923. Booth 402. Circle Card # 56

WORLD'S SMALLEST FINGERTIP OXIMETER

NONIN®, the world leader in fingertip oximetry, has designed years of clinical experience into the Onyx II. The electronics and sensor are incorporated into the world's smallest fingertip oximeter, providing a cost-effective solution for spot-checks and short term monitoring. The portability and functionality of the Onyx II makes it a valuable tool in any situation where a fast and accurate reading of blood oxygen saturation and pulse rate is needed. Visit www.nonin.com/nursing/ENA to learn more. Circle Card # 57 • Focus Booth 2020

MANUAL JET VENTILATOR

Instrumentation Industries, Inc.'s Manual Jet Ventilator and Transtracheal Catheter may be the emergency intervention of choice for the patient with facial trauma, partial airway obstruction, upper airway bleeding, or otherwise difficult airway access and management. We have been providing practical solutions for health care professionals in Emergency Medicine, Respiratory Therapy, Critical Care, and Anesthesia for over 30 years. Call (800) 633-8577 or visit www.iiirespiratory.com. Circle Action Card # 59 • Focus Booth 2022

MORE TIME TO BREATHE EASY

The AeroChamber MAX® allows your patient "More Time to Breathe Easy". Our valved holding chamber contains StatBan™, an anti-static polymer that minimizes static charge to maximize performance with all pMDI formulations. It also provides features such as the Flow-Vu® Inspiratory Indicator, a visual assist to help time the pMDI actuation with inspiratory flow and breath counting, giving more assurance than ever before. The FLOWSiGnal® Whistle alerts patients of improper technique when the patient inhales too quickly. The AeroChamber MAX®, Inspiration Pure and Simple! Of course it's from Monaghan Medical Corporation. Circle Action Card #58

HI FLOW DELIVERY SYSTEM

VAPOTHERM is a high flow heat and humidification device for the non-invasive delivery of inspired gas flows from 0.5 to 40 liters per minute. The unique technology delivers a perfect synchronization of flow, humidity, temperature and oxygen percentage without discomfort via nasal cannula. Find out why VAPOTHERM makes all the difference. Contact us to arrange a clinical evaluation. Precision Flow device pending FDA clearance. Circle Action Card # 60 • Focus Booth 518

LEADING THE INDUSTRY FOR 30+ YEARS

Sechrist Industries has been leading the industry by providing best-in-class medical equipment for over 30 years. Sechrist's Respiratory Products Division is one of the leading worldwide manufacturers of critical care neonatal/infant/pediatric ventilators, monitoring equipment, low pressure gas mixers and related products. Sechrist provides its medical equipment to over 150 countries and represents one of the largest ventilator installed bases worldwide. Continuing its leadership in ventilation for the smallest babies, Sechrist professionals are with our customers every step of the way. For information on Sechrist Industries, Inc., call 714-579-8400 or visit www.sechristusa.com. Circle Action Card # 61 • Focus Booth 519

NEW SPIROMETRY LINE

Smiths Medical PM, Inc. offers the spirobank™II and spirobank™MG handheld spirometers with graphic display, MiniSpir™ portable USB spirometer, Spirolab® III spirometer with oximetry option, and pocket-sized spirolab® device. Each uses turbine technology that does not need calibration. They provide real time graphical curves, automatic test interpretation, and QC monitors. An internal temperature sensor provides automatic BTPS conversion. Pulse oximetry is an option on most models, with oxygen evaluation and overnight sleep screening modes standard. Call 1-800-558-2345 or visit www.smiths-medical.com/spirometry. Circle Action Card # 62 • Focus Booth 413

CRITICAL CARE RESPIRATORY CARESTATION

The Engström Carestation® is the first critical care respiratory carestation to offer integration throughout the care process. From the ICU to the Step-down unit, you have the ability to integrate ventilation with monitoring modules capable of measuring advanced parameters - a first in ventilation & exclusively from GE Healthcare. INview™ Suite: SpiroDynamics® and FRC INview. New methods in ventilation monitoring for the clinician. Familiar user interface. Adaptable & flexible to your environment. Customizable screens. Non-invasive ventilation. Easy to maintain. Focused on patient safety. www.gehealthcare.com or call 800-345-2700 Circle Card # 63 • Focus Booth # 717

PRODUCT HIGHLIGHTS

POLYSOMNOGRAPHY COURSES

The Atlanta School of Sleep Medicine and Technology is a premier training facility for physicians, technicians & industry professionals in the field of sleep medicine. Our school is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians and approved by the Board of Registered Polysomnographic Technologists to provide continuing education courses toward the recertification of sleep technologists. Since 1992, we have provided those in the field of sleep medicine with the comprehensive educational opportunities that are needed to learn, grow and be successful. www.sleepschool.com 678-651-2000 Circle Card # 64 • Focus Booths 922 & 924

NEW DESKTOP SPIROMETER

The New Vitalograph ALPHA is simple to use for rapid and low cost spirometry testing. The ALPHA performs VC and FVC tests, measuring all key parameters and displays both flow/volume and volume/time curves in real time on the bright color screen. The best test is automatically selected and interpretation along with test quality information is provided in a clear, easy to read format. Data entry is quick, testing fast and results can be instantly be printed on the integrated printer or to a PDF report. Multiple pre-tests can be stored for subsequent post-testing. The integrated battery allows off site testing. (800) 255-6626. www.vitalograph.com. Circle Action Card # 65 • Focus Booth 223

AUDIO MONITORING FOR THE SLEEP LAB

Louree Electronics manufactures audio monitoring systems; several of which are especially designed for sleep applications. The system delivers crisp, clear audio, allowing the technician to closely monitor the patient. The technician can listen to the patient hands-free and needs only to press a switch to talk to the patient. The audio system consists of a speaker/microphone for wall mounting in the patient's room and a desktop receiver for the control room. The receiver has volume control and output to a VCR/DVR for recording along with an input for audio playback. For more information call 818-994-6498. Circle Action Card # 66

IMPROVE SLEEP & MORNING ALERTNESS

BioZzz Alpha-lactalbumin, an isolated whey protein, is the purest form of alpha-lactalbumin commercially available. BioZzz Alpha-lactalbumin is rich in tryptophan, an amino acid that has been shown in studies to improve sleep and morning alertness, cognitive performance under stress, and mood under stress. BioZzz is 100% Natural- no fat, no carbs, no sugars, no lactose. BioZzz is pure, premium, and virtually tasteless. Each scoop contains 20 grams of protein and 1 gram of tryptophan. One scoop of BioZzz before bedtime is the perfect addition to strawberry milk, smoothies or a variety of other recipes. Call 952-826-6245 or visit www.BiProUSA.com Circle Card # 67 • Focus Booth 117

UNPARALLELED NATIONAL COVERAGE

Hill-Rom® Medical Equipment Management Services provides unparalleled national coverage with almost 14,000 respiratory products (over 6,000 ventilators) available through over 200 service centers providing 1,400 field-based service personnel; and almost 175,000 pieces of rental equipment – all backed by a 24/7 national call center. Hill-Rom is a name you can trust with 78 years of proven experience serving the medical community. From on demand to seasonal and long-term agreements to customized asset management programs, Hill-Rom is here to help ensure you have the moveable medical equipment that you need, when you need it. NEW NONINVASIVE VENTILATOR

BiPAP®AVAPS™ is Respiration's newest noninvasive ventilator for use in the home, and features AVAPS™ (Avg Volume Assured Pressure Support) technology, which guarantees an avg tidal volume by automatically adapting pressure support to meet the patient's needs on a breath-by-breath basis by estimating the patient's tidal volume over several breaths and calculating the change in pressure needed to achieve the target tidal volume. AVAPS slowly increases or decreases the IPAP pressure to achieve the proper pressure support. Additional features include BiPAP® technology, Digital Auto-Trak™ Sensitivity, SmartCard for use with Encore® Pro and integrated alarms. bipapavs.respiration.com . Circle Action Card # 71

ROCHE HIGH VOLUME ABG ANALYZER

The Roche cobas b 221 analyzer is a complete blood gas solution designed for high-volume use. Delivers time & cost efficiencies. Configurable menu has options for blood gas, electrolytes & metabolites. Built-in AutoQC® module holds up to 40 days of QC material & automatically provides programmable QC regimens, lock-outs, & lot-to-lot comparisons. Combines with an online, real-time, peer review QC program that leads the industry for QC reporting. Powerful connectivity options capture and report data for max compliance. For optimum control, OMNILink instrument management software remotely manages analyzers from one central workstation. Circle Card # 72 • Focus Booth 803

RUDOLPH'S NEW V2™ FULL FACE MASK

NEW Full Face V2™ Mask from Hans Rudolph. Designed from years of feedback from key Sleep Professionals, RTs, Patients, & HomeCare Dealers. The V2™ offers guaranteed patient satisfaction with an ENTIRELY NEW SEAL TECHNOLOGY incorporating a Soft Anatomical Flange that follows any face contour. The New V2™ airtight leak free face mask is available in five sizes. The V2™ Headgear attaches to plastic support braces on the outside of the mask which allows for less strap tension and less facial pressure. The V2™ also features a detachable swivel port and micro-hole ventilation that allows CO2 to escape with minimal noise. Call 800-456-6695, Web: www.rudolphkc.com. Circle Card # 73

NEW TRANSPORT VENTILATOR

The pNeuton Transport Ventilators (pronounced new-ton) provide adult/pediatric volume targeted ventilation and high-performance CPAP for use in Hospital, MRI and EMS environments. Pure pneumatic technology eliminates the need for batteries. A choice of 100% or 65% oxygen delivery lets you significantly extend transport times – up to twice what you might expect. pNeuton is now available in two models: model A with a patient disconnect alarm system, and the new model S which is specifically ruggedized for any out-of-hospital conditions you may encounter. See the versatility that makes pNeuton your choice in transport ventilation. Visit www.pneuton.com or call 888-448-1238. Circle Reader Action Card # 74 • Focus Booth 1013

"ALL-IN-ONE" REGULATOR SYSTEM

Western Medica has brought you industry wide emulated products such as the OxyTote™ for over 55 years. "All-In-One" regulator is perfect for transporting oxygen in one easy-to-use package. Don't waste money on separate equipment costs or time looking for separate regulators, wrenches, and washers. Having OxyTote™ in your hospital includes advantages such as: eliminating inventory reordering confusion and maintenance repairs, simplifying training, accurately dispensing oxygen, and decreasing liability. The OxyTote™ improves safety by effectively eliminating: gas mix ups, exposure to high pressure gas connections, and particulate contamination leading to regulator fires. 800-783-7890 or visit <http://westernenterprises.com/medica/>. Circle Card # 75 • Focus Booth 226

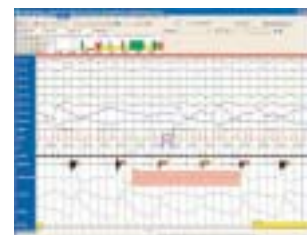

NEW PORTABLE LIQUID OXYGEN

The VIAspire™ Liquid Oxygen Portable featuring SmartDose™ technology is now available for use with PB or Caire LOX reservoirs, as well as the VIAspire Liquefier from Inspired Technologies. Patient tests show that SmartDose technology helps maintain higher saturation levels than continuous flow & fixed dose devices. As a patient's respiratory rate increases, a proprietary algorithm detects the change and increases the O₂ dose. The VIAspire™ always delivers O₂ at the leading edge of inspiration—where it's utilized best and needed most, allowing all-day portable use and greater patient activity. Call Inspired Technologies 724-861-5510 for more info. Circle Action Card 76

NEW SLEEP DIAGNOSTIC SYSTEM

Stellate's Harmonie-S Sleep Diagnostic System offers a complete solution for your Sleep Lab. Powerful features ensure high performance, ease of use and complete flexibility for all applications. Quick start, on-line sleep staging, on-line/off-line event editing, user configurable sleep graphs, perfectly synchronized MPEG-4 digital video and a 20-bit, 44-channel amp with variable sampling rates up to 2000 Hz are just a few of the features that help ensure quality and efficiency. A Microsoft® SQL patient database with scheduling and electronic patient record management facilitates efficient lab operations. Harmonie-S offers a complete solution for all your Polysom requirements. Circle Action Card #77 • Focus Booths 303 & 305

NEW OXYGEN DISPENSING SYSTEM

The Walk-O2-Bout® oxygen dispensing system is an integrated lightweight cylinder with wide permanent stainless steel handle and built-in regulator. The gauge allows for monitoring of O₂ contents, and with the complete Walk-O2-Bout offering, expanded flow control range from .25-25 lpm for max versatility. The optional O₂ outlet port swivels a full 180 degrees. There is a 50 psi DISS connection feature that allows a patient to be transported when on a portable pressure type ventilator. Other models include a Pediatric unit with flow rate range of 0-4 lpm, MRI Compatible unit and EMS/First Responder with shorter handle to fit in an ambulance. A Heliox Walk-O2-Bout is also available. Circle Card # 78

NEW CLOSED SUCTION SYSTEM

The Portex® SuctionPro™ 72 Closed Suction System, is designed for airway suctioning of critically ill patients and is indicated for 72 hours of continuous use. The closed system reduces risk of cross contamination and the lockable end cap prevents inadvertent suctioning. This product features an unobstructed evacuation pathway making it easy to remove secretions. All product codes include a swivel connector to reduce torque to the patient and a 15/22 mm connector to accommodate various ventilator circuit sizes. Portex® SuctionPro™ 72 systems offer value and a time-saving solution for therapists, nurses, and medical facilities. For more information call 800-258-5361. Circle Card # 79 • Focus Booth 413

NEGATIVE INSPIRATORY FORCE METER

Introducing the NIFometer - The first Disposable Negative Inspiratory Force Meter is now available from Mercury Medical®. Quick and Easy - NIFometer is small, compact and self-contained. It connects directly to the ET tube eliminating the need for separate tubing and connectors. Safe - The single patient use feature eliminates the risk of cross contamination. Reliable - No calibration required and accurate to + 2 cm H₂O between -20 to -30. Memory pointer records highest force. Convenient - Small and compact (only 30 grams), fits in pocket – readily available for added efficiency. For more information, contact Customer Service at 800-237-6418. Circle Action Card # 80 • Focus Booths 202 & 204

NEW CONTINUOUS NEBULIZER

The HOPE continuous nebulizer is improved CNBT technology, which relieves the practitioner of the laborious task of remixing SVN's every 15 minutes. HOPE allows you the ability to mix medications from one to eight hours. Heliox administration couldn't be easier, with a length of oxygen tubing and a tank of Heliox, you can turn the HOPE nebulizer into an inexpensive alternative to a tube and ventilator. With or without helium, the HOPE nebulizer is the best product you will find to reverse impending respiratory failure, severe asthma, pneumonia, and COPD. PRODUCT HIGHLIGHTS

NEW CUFFLESS SUPRALARYNGEAL AIRWAY

The SLIPA airway represents the first cuffless supralaryngeal airway that is superior to other equivalent airways because it maximizes on the space available for trapping and storing liquids that could be aspirated if regurgitation occurs during anaesthesia or resuscitation. Air cushions limit that possibility. Being reshaped, selection of the best site for sealing is achieved with resultant good quality seal pressures and the relief of pressure is achieved at selected sites where injury to vulnerable nerves may occur. This illustrates a number of design advantages and lowers costs. Visit www.slipa.com/index.php and www.arcmedical.com. Call ARC Medical at (800) 950-ARC1 Circle Action Card # 84 • Focus Booth 809

INDUCTANCE PLETHYSMOGRAPHY SYSTEM

The Sleepmate RIPmate™ meets the new AASM Technical Respiratory Rule recommendations for accreditation & scoring. Designed with a washable one-size-fits-all belt and buckle. Plugs directly into the AC input of any headbox with NO additional software needed. Patient set-up is simple; As easy to use as our standard piezo effort belts. Provides a reliable effort signal that eliminates effort signal loss and false paradoxical signals. Ships with a RIP Education CD and will be upgradeable with a "sum" channel that does not require calibration, and can be used for identifying paradoxical breathing. Visit Sleepmate.com or call 1-800-639-5432 for more information. Circle Card # 85 • Focus Booths 218 & 623

TRANSTRACHEAL OXYGEN

Transtracheal Systems is a medical device manufacturing company that specializes in the design and production of innovative oxygen therapy products. Each product in our line is designed to improve oxygenation, ambulation, and quality of life for patients requiring continuous supplemental oxygen. Our core product since 1986 has been the SCOOP product line of transtracheal catheters. Over 160 references in the medical literature testify to the superior clinical benefits of SCOOP catheters over nasal prongs. SCOOP catheters reduce resting flow rates 50-60%, while insuring 24 hours per day compliance with prescribed oxygen therapy. Circle Action Card # 86 • Focus Booth 913

ORIGINAL INDUCTIVE PLETHYSMOGRAPH

Ambulatory Monitoring, Inc. provides the Intuctrace original inductive plethysmograph design - standard for monitoring respiratory volume changes from the chest/abdominal wall. Respiratory patterns reflecting intercostal/abdominal changes, summed in a 3rd channel, identify obstructive apnea. The Inductotrace is now enhanced by the addition of Inductoview Software with Personal Measurement Device, which provides an effective method to capture respiratory data by adding a simple interface to Windows 9X/NT via USB eliminating the need for A-to-D cards. For more information, call 800 341-0066 or visit www.ambulatory-monitoring.com. Circle Action Card # 87 • Focus Booth 118

Ambulatory Monitoring, Inc.

OUTFIT YOUR LAB OR CLINIC WITH NSI

NeuroSupplies Integra™ is a leading distributor of a wide range of neurological and sleep studies supplies required for electroencephalograph, evoked potentials, electromyography and sleep disorders testing. We supply air pressure transducers, snore sensors, electrodes, adhesive paste and gels for electrode application, educational materials and other necessities. NSI offers the most complete and highest quality range of products designed to outfit your lab or clinic at the most affordable pricing.
