

## Alabama School of Sleep Medicine & Technology

### SLEEP MEDICINE COURSES AVAILABLE

The Alabama School of Sleep Medicine and Technology employs unique instructional techniques with a mix of classroom and hands-on instruction to create the most comprehensive sleep education experience available. We keep our class sizes small and pride ourselves on our proprietary training materials. The full training experience includes a balance of classroom, clinical, and technical hands-on instruction. Our pledge is to exceed expectations and provide a fulfilling educational experience covering all aspects of sleep medicine. We offer 10-, 8-, and 5-Day comprehensive courses, as well as a SCAP course, an Exam Review course, a CPAP/BiLevel Titration course, and web-based courses. Circle Card # 58

### NEW RESPIRATION MONITOR

Rochester Electro-Medical, Inc., Tampa, FL, offers a complete line of Respiration Monitors for recording nasal/oral airflow. The newest version of their most popular UltraFlow™ cannula-style monitor is available in Adult and Child sizes and features a thinner and smaller design that is strong and reliable while maintaining the flexibility needed to provide maximum patient comfort. Inexpensive Disposable Respiration Monitors are also offered in Adult and Child sizes and are priced as low as \$50 for a package of 10. For complete pricing and product information, visit Rochester's website or check out the new 2006 Product Catalog. 800-328-5544; or visit [www.rochestersteeple.com](http://www.rochestersteeple.com). Circle Card # 59

### CONTINUOUS OXYGEN ANALYZER

Portable and easy to use, the MiniOX 3000 Oxygen Monitor is perfect for "in line" oxygen monitoring in such applications as hospital and home ventilators, NICU, and anesthesia delivery equipment. The unit features high and low oxygen concentration alarms, automatic calibration, battery life indicators with alarms, sensor/cable disconnect alarm, and an alarm verification indicator. Powered by one 9-volt battery, the monitor provides up to 1,500 hours of use and is shipped ready-to-use, complete with O2 sensor, coiled cable, retaining strap, tee adapter, and battery. For more information call 800-851-4500 or visit [www.msnet.com](http://www.msnet.com). Circle Card # 60 • AARC Booth 1902

### NEW PRODUCTS FROM ITAMAR MEDICAL

Itamar Medical Ltd., has developed and received FDA approval for the following two products: Watch-PAT 100 - an innovative automated ambulatory sleep apnea system that provides the practitioner with a clinically proven finger probe interface that is exceptionally user and staff friendly and provides the diagnosing MD with an immediate comprehensive report that includes sleep/wake and REM analysis. Endo-PAT 2000 - a unique device for assessment of Endothelial Dysfunction—the forerunner of coronary artery disease. It is currently for sale as a "research package" only. Call 888.748.2627. Visit: [www.itamar-medical.com](http://www.itamar-medical.com). Circle Card # 61

### MEDICAL SUCTION REGULATORS

Genstar Technologies Co., Inc. presents a new line of medical suction regulators. Available in both continuous-only and continuous-intermittent versions, these suction regulators offer high flow rates, large, color-coded gauges, compact design, and a variety of inlet and outlet fittings. Suction ranges include 0-160 mmHg (Pediatric), 0-300 mmHg (Adult), and 0-760 mmHg (Surgical). Reusable aluminum-top suction trap assemblies are also available, either with the suction regulator or as an accessory item. GENTEC also offers a complete line medical gas pipeline and source equipment products. Call 800-333-0811, [info@genstartech.com](mailto:info@genstartech.com). Circle Card # 62 • AARC Booth 1140

### MANUAL JET VENTILATOR

Instrumentation Industries, Inc.'s Manual Jet Ventilator and Transtracheal Catheter may be the emergency intervention of choice for the patient with facial trauma, partial airway obstruction, upper airway bleeding, or otherwise difficult airway access and management. We have been providing practical solutions for health care professionals in Emergency Medicine, Respiratory Therapy, Critical Care, and Anesthesia for over 30 years. Call (800) 633-8577 or visit [www.iiirespiratory.com](http://www.iiirespiratory.com). Circle Action Card # 63 • AARC Booth 1116

### NON-INVASIVE DELIVERY OF GAS FLOWS

VAPOTHERM is a high flow heat and humidification device for the non-invasive delivery of inspired gas flows from 0.5 to 40 liters per minute. The unique technology delivers a perfect synchronization of flow, humidity, temperature and oxygen percentage without discomfort via nasal cannula. Find out why VAPOTHERM makes all the difference. Contact us to arrange a clinical evaluation. Precision Flow device pending FDA clearance. Circle Action Card # 64 • AARC Booth # 1337

### NEW VENTILATOR/MONITORING SYSTEM

AVEA is an integrated ventilator and advanced monitoring system that meets the demanding needs of critical care practitioners. Neonatal through adult applications are provided as standard features on all models. Bicare™ advanced pulmonary monitoring and Heliox administration provides clinicians with the tools to improve clinical outcomes. Innovative engineering is evident in AVEA's scroll pump compressor, the smallest, quietest medical air compressor on the market. Coupled with the ability to operate on battery power for up to 2 hours, this feature takes safety & wall independence to a new level. 800-231-2466 [www.viasyshealthcare.com](http://www.viasyshealthcare.com). Circle Action Card #65 • AARC Booth 903

### NEW POCKET-SIZED CAPNOMETER

The new BCI® Capnocheck® capnometer from Smiths Medical, PM is a pocket-sized, fully quantitative capnometer that monitors CO concentrations and respiratory rate in one easy-to-use device. The device uses miniaturized mainstream ET/CO2 technology, providing accuracy in a lightweight, cost effective capnometer. The Capnocheck® does not need routine calibration and has multiple applications (intubation verification, an indicator for return of spontaneous circulation, routine airway management, ventilator transport & weaning). The Capnocheck® provides a fully quantitative numeric value recommended in the AHA 2005 guidelines. 1-800-558-2345, [www.smiths-medical.com/capnocheck](http://www.smiths-medical.com/capnocheck). Circle Action Card # 66 • AARC Booth 113

### E360 NOW WITH LCD DISPLAY MONITOR

NEWPORT MEDICAL'S newest ventilator, the e360, easily transitions from invasive to non-invasive ventilation for Adult, Pediatric or Infant patients. The e360 is simple to use and provides comprehensive mode selections with graphics and monitoring built into a single compact package. The e360 is now available with an optional 15" LCD flat panel monitor. The added 15" monitor allows for easy distance viewing of waveform graphics and monitored parameters. The Newport e360's compact size, comprehensive features, safety management and low cost of ownership make it ideal for today's hospital and sub-acute facilities. Call 800.451.3111 ext. 208. [www.Ventilators.com](http://www.Ventilators.com) Circle Action Card # 67 • AARC Booth 937

# PRODUCT HIGHLIGHTS

## POLYSOMNOGRAPHY COURSES

The Atlanta School of Sleep Medicine and Technology is a premier training facility for physicians, technicians & industry professionals in the field of sleep medicine. Our school is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education for physicians and approved by the Board of Registered Polysomnographic Technologists (BRPT) to provide continuing education courses toward the recertification of sleep technologists. Since 1992, we have provided those in the field of sleep medicine with the comprehensive educational opportunities that are needed to learn, grow and be successful. [www.sleepschool.com](http://www.sleepschool.com) 678-651-2000 Circle Card # 68

## AUDIO MONITORING FOR THE SLEEP LAB

Louree Electronics manufactures audio monitoring systems; several of which are especially designed for sleep applications. The system delivers crisp, clear audio, allowing the technician to closely monitor the patient. The technician can listen to the patient hands-free and needs only to press a switch to talk to the patient. The audio system consists of a speaker/microphone for wall mounting in the patient's room and a desktop receiver for the control room. The receiver has volume control and output to a VCR/DVR for recording along with an input for audio playback. For more information call 818-994-6498. Circle Action Card # 70

## NEW SLEEP-SCREENING TOOL

The ResMed ApneaLink™ is a simple, cost effective sleep-screening tool designed to help sleep professionals increase their business by objectively identifying more patients at risk for sleep-disordered breathing (SDB). Three easy steps can lead to increased referrals and, most importantly, better quality of life for SDB sufferers. • Screening - ApneaLink • Diagnosis - Polysomnography • Treatment - ResMed PAP therapy. For more information, visit ResMed online at [www.resmed.com](http://www.resmed.com), or call them at 800-424-0737. Circle Reader Card # 72 • AARC Booth 103

## AUTOMATIC RESPIRATORY PRODUCTS

VORTRAN manufactures a line of low cost, single patient, automatic respiratory products: VORTRAN Automatic Resuscitator- MRI safe, automatic resuscitator for transport or emergency ventilation for pediatric/adult patients 22 lbs. and above. E-Vent Case™- for rapid emergency ventilation deployment in any Mass Casualty Incident. PercussiveNEB™- inexpensive, hi-frequency airway clearance percussive device. VORTRAN IPPB™- easy to use IPPB w/o the capital equipment expense. Hi-Flow 70 Compressor custom manufactured meeting hi-flow requirements unique to PercussiveNEB and VORTRAN-IPPB. 800-434-4034. Circle Action Card # 74 • AARC Booth 1029-1031

## ROCHE HIGH VOLUME ABG ANALYZER

The Roche cobas b 221 analyzer is a complete blood gas solution designed for high-volume use. Delivers time & cost efficiencies. Maximizes uptime while providing extreme convenience & control. Configurable menu has options for blood gas, electrolytes & metabolites. Built-in AutoQC® module holds up to 40 days of QC material & automatically provides programmable QC regimens, lock-outs, & lot-to-lot comparisons. Combines with an online, real-time, peer review QC program that leads the industry for QC reporting. Powerful connectivity options capture and report data for max compliance. For optimum control, OMNILink instrument management software remotely manages analyzers from one central workstation. Circle Card # 76 • AARC Booth 703

## MEDICAL GAS FLOW CONTROLS

Genstar Technologies Co., Inc. (GENTEC), Chino, California, is pleased to present a new line of medical gas flow controls. This product line includes 80/20 Heliox flowmeter regulators (12 LPM flowmeter), brass body and aluminum body oxygen and medical air flowmeters (15 LPM), and aluminum body/brass core click-style oxygen regulators in 0-8 LPM, 0-15 LPM, and 0-25 LPM versions. Also available is our new MINI click-style oxygen regulator, which is a full 25% shorter than our standard unit. GENTEC also offers a complete line medical gas pipeline and source equipment products. Contact GENTEC at 1-(800) 333-0811, or by e-mail to [info@genstartech.com](mailto:info@genstartech.com). Circle Action Card # 69 • AARC Booth 1140

## INNOVATIVE, GLOBAL COMPANY

Embla® is an innovative, global company with a philosophy and vision 'To be Closer to our Customers' by proactively understanding our customers' needs and providing solutions to their challenges. Our 2-year Hardware Warranty and elite technical support team are examples of such solutions. Innovation is also a theme among Embla's product line including the Embletta® portable diagnostic recorder which boasts over a half-million sleep studies, the Embla Enterprise™ business management system and our renowned PSG software platforms Somnologica™ and Rembrandt®. 888-662-7632 or [www.embla.com](http://www.embla.com). Circle Action Card # 71 • AARC Booth 1144

## VERSATILE ECG/SPIROMETRY UNIT

Futuremed introduces the P8000 Power, an economically priced instrument that lets the user start with a resting ECG and add spirometry or exercise stress testing. The P8000 has a full keyboard and the unit's high resolution screen allows real time display of Flow/Volume loops or time/volume curves. Preview ECG tracings before printing. Electrical power is backed by a rechargeable battery. Reports are available complete with diagnosis if desired. Meets all ATS, OSHA and Social Security standards. Visit us at [www.futuremedamerica.com](http://www.futuremedamerica.com), or call 1-800-222-6780 for more information on the P8000 or any of our other fine products. Circle Action Card # 73

## NEW CRITICAL CARE ANALYZER

GEM Premier 4000 is the revolutionary analyzer with integrated CO-Oximetry that quickly provides consistent, accurate, lab-quality results throughout your hospital. Easy-to-use touch-screen displays make it simple to select and customize parameters. Self-contained cartridges incorporate all components for patient testing and are maintenance-free. iQM® automates quality control and continuously detects, corrects and documents to assure quality results and compliance, 24/7, regardless of operator or testing location. GEMweb® Plus software enables remote access to any networked analyzer for real-time status updates and supervision of remote locations. Instrumentation Laboratory - 800.955.9525; [www.ilus.com](http://www.ilus.com). Circle Card 75 • AARC Booth 1402

## RUDOLPH'S NEW V2™ FULL FACE MASK

NEW Full Face V2™ Mask from Hans Rudolph. Designed from years of feedback from key Sleep Professionals, RTs, Patients, & HomeCare Dealers. The V2™ offers guaranteed patient satisfaction with an ENTIRELY NEW SEAL TECHNOLOGY incorporating a Soft Anatomical Flange that follows any face contour. The New V2™ airtight leak free face mask is available in five sizes. The V2™ Headgear attaches to plastic support braces on the outside of the mask which allows for less strap tension and less facial pressure. The V2™ also features a detachable swivel port and micro-hole ventilation that allows CO2 to escape with minimal noise. Call 800-456-6695, Web: [www.rudolphkc.com](http://www.rudolphkc.com). Circle Card # 77

## NEW TRANSPORT VENTILATOR

The pNeuton Transport Ventilator (pronounced new-ton) provides adult/pediatric volume targeted ventilation and high performance CPAP for use in Hospital, MRI and EMS environments. Pure pneumatic technology eliminates the need for any batteries. A choice of 100% or 65% oxygen delivery lets you significantly extend transport times — up to twice what you might expect. pNeuton is also available in the model A version with an internal patient disconnect alarm system. The alarm is audible and visual with a remote output for an external monitor. See the rugged versatility that makes pNeuton your choice in transport ventilation. Visit [www.pneuton.com](http://www.pneuton.com) or call 888-448-1238. Circle Reader Action Card # 78 • AARC Booth 940

## SOLO SINGLE PATIENT USE NEBULIZER

The Aeroneb® Solo nebulizer is the latest addition to Aerogen's nebulizer range. Designed for use with ventilated patients from infants through adults, the Aeroneb Solo features all the advantages of the Aeroneb Pro but with the increased convenience of being a single patient use device. The Aeroneb Solo represents a new dimension in acute care nebulization and is the first single patient use, high efficiency nebulizer available to care givers. It provides the additional functionality of continuous nebulization when powered by the Aeroneb Pro-X controller. For more information, please visit Aerogen online at [www.aerogen.com](http://www.aerogen.com) or call 1-866-423-7643. Circle Action Card # 79 • AARC Booth 512-514

## NEW CONTINUOUS NEBULIZER

The HOPE continuous nebulizer is improved CNBT technology, which relieves the practitioner of the laborious task of remixing SVN's every 15 minutes. HOPE allows you the ability to mix medications from one to eight hours. Heliox administration couldn't be easier, with a length of oxygen tubing and a tank of Heliox, you can turn the HOPE nebulizer into an inexpensive alternative to a tube and ventilator. With or without helium, the HOPE nebulizer is the best product you will find to reverse impending respiratory failure, severe asthma, pneumonia, and COPD. Call 800-242-8778 or visit [www.bandb-medical.com](http://www.bandb-medical.com) Circle Action Card # 80 • AARC Booth 721

## NEW TOTAL O2 DELIVERY SYSTEM

The iVent201 ventilator is the most versatile ICU class ventilator on the market. In VersaMed's continuing commitment to providing cutting edge products to be used throughout the spectrum of care, we created the first full featured, transportable, MRI compatible, critical care grade, invasive and non-invasive ventilator available. With the advanced features of the iVent201, your patient will be comfortable throughout the trip to from the ICU to the MRI suite or anywhere they need to go, even home! With its competitive price and unlimited upgradeability, the iVent201 is the savviest investment for all your needs, now and in the future. Call 800-475-9239 or visit [www.versamed.net](http://www.versamed.net). Circle Action Card # 81 • AARC Booth 821

## NEW RIP EFFORT BELTS

Do your effort belts meet the new AASM Guidelines? Pro-Tech's zRIP™ is true inductance technology. The zRIP kit is all you need to record accurate effort signals. The module is available in a new real-time Sum RT model and in a Standard (non-sum) model. The zRIP Effort Sensor belts are easy to use, machine washable, and come with a full 1 year warranty. The belts are designed for complete patient coverage while providing true breathing tracings with no false paradoxing. Available in adult and pediatric sizes. Receive an educational booklet on RIP, or to order zRIP, call 1-800-919-3900, or visit [www.pro-tech.com](http://www.pro-tech.com). Circle Card # 82

## NEW CLOSED SUCTION SYSTEM

The Portex® SuctionPro™ 72 Closed Suction System, is designed for airway suctioning of critically ill patients and is indicated for 72 hours of continuous use. The closed system reduces risk of cross contamination and the lockable end cap prevents inadvertent suctioning. This product features an unobstructed evacuation pathway making it easy to remove secretions. All product codes include a swivel connector to reduce torque to the patient and a 15/22 mm connector to accommodate various ventilator circuit sizes. Portex® SuctionPro™ 72 systems offer value and a time-saving solution for therapists, nurses, and medical facilities. For more information call 800-258-5361. Circle Action Card # 83 • AARC Booth 113

## LEADING INDUSTRY FOR OVER 30 YEARS

Sechrist Industries has been leading the industry by providing best-in-class medical equipment for over 30 years. Sechrist's Respiratory Products Division is one of the leading worldwide manufacturers of critical care neonatal/infant/pediatric ventilators, monitoring equipment, low pressure gas mixers and related products. Sechrist provides its medical equipment to over 150 countries and represents one of the largest ventilator installed bases worldwide. Continuing its leadership in ventilation for the smallest babies, Sechrist professionals are with our customers every step of the way. For information on Sechrist Industries, Inc., call 714-579-8400 or visit [www.sechristusa.com](http://www.sechristusa.com). Circle Action Card # 84

## THE FREQUENCER™ BY DYMEDSO

The Frequencer™ provides airway clearance therapy and promotes bronchial drainage by inducing vibration in the chest walls. The Frequencer™ uses acoustics to generate frequencies between 20-100Hz, more than enough to reach a patient's own lung resonant frequency. It then becomes easier to liquefy mucus and clear airways. Treatment is indicated for patients having respiratory ailments that involve defective mucociliary clearance, as is typical in patients with Cystic Fibrosis, chronic bronchitis, bronchiectasis, ciliary dyskinesia syndromes, asthma, muscular dystrophy, neuromuscular degenerative disorders, post-operative atelectasis and thoracic wall defects. Dymedso - 877.396.3376 or visit [www.dymedso.com](http://www.dymedso.com) Circle Action Card # 85

## INDUCTIVE (RIP) INTERFACE CABLES

SLP Inc. introduces the new SleepSense Interface cables that accompany the SleepSense Inductive/RIP bands. SLP provides two separate interface cables for abdomen and thorax with a variety of connection methods that will effortlessly suit most any PSG system on the market. SleepSense interface cables are a direct plug and play replacement for any Piezo effort sensor and last for over 700 nights. Powered by an internal battery, the system specific interface cables require no adjustments or switches. The combination of the SleepSense RIP bands and interface cables provide an excellent signal throughout the night. (888) 757-7367 [www.SleepSense.com](http://www.SleepSense.com) Circle Action Card # 86

## HOLISTIC AROMATHERAPY PRODUCTS

Introducing the Pur-Sleep System™: holistic aromatherapy products lightly scent the air with one of nine natural aromatics as the air is drawn into any type of CPAP equipment. Pleasant smells induce strong feelings of calm, comfort, and relaxation. The sense of smell is part of the brain's emotional centers, the same part of the brain responsible for feelings of stress and anxiety. Cognitive distraction allows the patient to focus attention on the pleasant smell to the exclusion of other distractions. Eliminate unpleasant CPAP smells, plastic odors and stale air! Improve compliance! Reduce failed titration studies! Seeking wholesale relationships: [www.pur-sleep.com](http://www.pur-sleep.com); [bret@pur-sleep.com](mailto:bret@pur-sleep.com); 801-831-5959. Circle Action Card # 87

# PRODUCT HIGHLIGHTS

## NEW CUFFLESS SUPRALARYNGEAL AIRWAY

The SLIPA airway represents the first cuffless supralaryngeal airway that is superior to other equivalent airways because it maximizes on the space available for trapping and storing liquids that could be aspirated if regurgitation occurs during anaesthesia or resuscitation. Air cushions limit that possibility. Being reshaped, selection of the best site for sealing is achieved with resultant good quality seal pressures and the relief of pressure is achieved at selected sites where injury to vulnerable nerves may occur. This illustrates a number of design advantages and lowers costs. Visit [www.slipa.com/index.php](http://www.slipa.com/index.php) and [www.arcmedical.com](http://www.arcmedical.com). Call ARC Medical at (800) 950-ARC1 Circle Action Card # 88

## INDUCTANCE PLETHYSMOGRAPHY SYSTEM

The Sleepmate RIPmate™ meets the new AASM Technical Respiratory Rule recommendations for accreditation & scoring. Designed with a washable one-size-fits-all belt and buckle. Plugs directly into the AC input of any headbox with NO additional software needed. Patient set-up is simple; As easy to use as our standard piezo effort belts. Provides a reliable effort signal that eliminates effort signal loss and false paradoxical signals. Ships with a RIP Education CD and will be upgradeable with a "sum" channel that does not require calibration, and can be used for identifying paradoxical breathing. Visit [Sleepmate.com](http://Sleepmate.com) or call 1-800-639-5432 for more information. Circle Card # 89

## TRANSTRACHEAL OXYGEN

Transtracheal Systems is a medical device manufacturing company that specializes in the design and production of innovative oxygen therapy products. Each product in our line is designed to improve oxygenation, ambulation, and quality of life for patients requiring continuous supplemental oxygen. Our core product since 1986 has been the SCOOP product line of transtracheal catheters. Over 160 references in the medical literature testify to the superior clinical benefits of SCOOP catheters over nasal prongs. SCOOP catheters reduce resting flow rates 50-60%, while insuring 24 hours per day compliance with prescribed oxygen therapy. Circle Action Card # 90 • AARC Booth 1622

## ORIGINAL INDUCTIVE PLETHYSMOGRAPH

Ambulatory Monitoring, Inc. provides the Intuctrace original inductive plethysmograph design - standard for monitoring respiratory volume changes from the chest/abdominal wall. Respiratory patterns reflecting intercostal/abdominal changes, summed in a 3rd channel, identify obstructive apnea. The Intuctrace is now enhanced by the addition of Inductoview Software with Personal Measurement Device, which provides an effective method to capture respiratory data by adding a simple interface to Windows 9X/NT via USB eliminating the need for A-to-D cards. For more information, call 800 341-0066 or visit [www.ambulatory-monitoring.com](http://www.ambulatory-monitoring.com). Circle Action Card # 91

**Ambulatory  
Monitoring, Inc.**

## NEW CHILDREN'S SIZE SENSORS

Dymedix Corporation, Minneapolis, MN, introduces NEW CHILDREN'S SIZE sensors for those patients older than neonates (Neonatal Size) and larger than toddlers (Pediatric Size). Both Dymedix sensor lines, Gemini and Airflow, now available in Pediatric, Children's, Small, Medium and Large Sizes. The Dymedix Gemini sensor captures oral and nasal airflow plus snore with one "peel-and-stick" single-patient-use sensor applied between the nose and the upper lip. Additional information is available by calling toll free at 888-212-1100. Circle Action Card # 92

## AIRWAY CLEARANCE SYSTEM

Electromed, Inc.'s SmartVest® Airway Clearance System uses High Frequency Chest Wall Oscillation (HFCWO) therapy to deliver effective and well-tolerated airway clearance treatment for patients who are otherwise at risk of developing respiratory infections from retained secretions. The Company's new Trimline™ Model emphasizes convenience in providing HFCWO therapy. The SmartVest system is Portable, Programmable, and Multi Positional. The vest is made of a soft fabric material, is washable, and provides treatment on a full coverage basis. Call us at 1-800-462-1045 or visit [www.electromed-usa.com](http://www.electromed-usa.com). Circle Action Card #93 • AARC Booth 414

## QUALITY TRACINGS AND EASY CLEAN-UP

FMI proudly distributes top quality sleep and neurology products from leading manufacturers. Nuprep™ skin prepping gel and conductive paste have been used successfully over the past 15 years in hundreds of sleep centers and hospitals in the U.S. and abroad. The abrasive in patient-friendly Nuprep gel helps lower impedances at the electrode site, helping to improve tracings. The washable, non-drying formulation of Ten20 Conductive paste makes cleaning up easy and quick. For more information call Faith Medical Inc @ 800-600-1390 or visit us at one of our upcoming conferences: FOCUS or APSS. Circle Action Card # 94

## DRÄGER CELEBRATES 100 YEARS

Dräger celebrates 100 years in America and the 100th anniversary of the Pulmotor, our first mobile short-term respirator. See an original Pulmotor along side our latest devices – the EvitaXL, Oxylog 3000 and Carina™ home ventilators at the upcoming AARC Convention. See how our SmartCare™ automated knowledge-based system for the EvitaXL integrates protocolized care into the weaning process with continuous adaptation of the level of assistance. Stop by our booth to learn how this and other Dräger innovations can benefit your patients. For more information, call Dräger at 800-437-2437 or visit their website at [www.draeger.com](http://www.draeger.com). Circle Action Card #95 • AARC Booth 1203

## SERVO VENTILATORS FROM MAQUET

For 30+ years, SERVO ventilators have been recognized as the leading name in ventilation technology. From its non-invasive option on the SERVO-i to the new SERVO-s for chronic care, SERVO is recognized for providing ventilation for neonatal, pediatric & adult patients. SERVO's graphical representation of measured & calculated values makes for easy interpretation. SERVO-i ventilators are available with Maquet's proprietary Open Lung Tool—life-saving software for advanced monitoring & feedback that optimizes gas exchange & oxygenation, minimizes ventilator time & prevents ventilator-induced injuries. (888)-MAQUET3 or [maquet.com](http://maquet.com). Circle Card # 96 • AARC Booth 1113

## LEADER IN SLEEP MEDICINE EDUCATION

The School of Sleep Medicine, Inc., a member of the Stanford Univ. Center of Excellence for the Diagnosis & Treatment of Sleep Disorders is globally recognized as the leader in sleep medicine education. We take pride in providing comprehensive, state-of-the-art information regarding the evaluation, diagnosis & treatment of sleep disorders patients. Alumni include physicians, technologists and health care professionals worldwide. Our faculty is comprised of experts recognized for their work in clinical sleep medicine, sleep research, & technology. More than 80% of board certified sleep specialists are SSM alumni. We offer a variety of courses and other materials to meet the educational needs of health care providers in sleep medicine. Call 650-326-1296, fax 650-326-1295 or visit [sleepedu.net](http://sleepedu.net). Circle Card # 97
