

At The Forefront of Excellence stands The University of Chicago Medical Center, one of the nation's leading academic medical centers.

We are currently seeking:

RESPIRATORY THERAPISTS

In this role, you will perform basic respiratory therapy procedures, including initiating and maintaining records and forms to document such therapy. You will perform minor and major respiratory therapy procedures with adult, pediatric and neonatal patients.

Candidates must be credentialed as Registered Respiratory Therapists (RRTs) by the NBRC, and be Basic Rescuers through the American Heart Association. Must also know the indications, contra-indications and hazards involved with continuous ventilation and all treatments administered.

If you'd like to be part of our dynamic team, please visit:

www.uchospitals.edu

In its annual survey, U.S. News & World Report selected The University of Chicago Medical Center as one of the very best hospitals in the United States.

AT THE FOREFRONT OF MEDICINE®

We are proud to be an EEO/AA employer M/F/D/V. We maintain a drug-free workplace and perform pre-employment substance abuse testing.
