

*The NEW Improved StatCO₂ and Mini StatCO₂ ...
Verification with Enhanced Reliability.*

*Reliably performs for 24 hours.
Reliably performs in 100% humidity.*

StatCO₂ and Mini StatCO₂ allow you to easily comply with recent AHA Guidelines recommending secondary ET tube placement verification initially and during transport.¹

With one StatCO₂ and Mini StatCO₂ you can reliably monitor proper ET tube placement initially and as often as necessary after each patient move within a 24 hour period ... and they are not affected by humidity.

But **Reliability** isn't the only advantage of StatCO₂ and Mini StatCO₂. Both also provide enhanced **Economy** and **Convenience**.

StatCO₂ over 15 kgs body weight.
Mini StatCO₂ 1-15 kgs body weight.

StatCO₂ and Mini StatCO₂ ...

Verification with Enhanced Economy, Reliability and Convenience.
